

# Thanks for coming along

Thank you for attending Wheatley Homes South's Lochside engagement event, which focussed on our proposed development plans at Osborne Drive and Findlater Court.

Wheatley Homes South has over 10,000 homes across Dumfries and Galloway, and we focus on delivering high quality services locally within our communities. This includes:

➤ **taking pride in our communities:** our Neighbourhood Environmental Teams (NETs) look after our open areas across the region, including grass cutting, removing bulk waste and cleaning in communal closes;

➤ **supporting our customers and communities:** we have extensive support services available. This includes fuel and benefit advice as well as offering employability opportunities and supporting customers into further education through our bursary scheme;

➤ **to live in quiet and clean communities:** in addition to our NETs work, our Group Protection Team supports housing staff to address any

anti-social behaviour within our communities;

➤ **offering opportunities to have your say:** our Stronger Voices programme is well-established across Dumfries and Galloway, allowing customers to engage with us to shape the services we deliver in our communities.

# Have your say

Please complete our short **survey** regarding the proposed development of land at Lochside for social housing.

Wheatley Homes South has an ambitious new-build programme.

In the last year, we handed over 101 homes to customers at two sites in Locharbriggs and Springholm. We currently have a further 10 sites in development across the region.

This has already made a real and lasting difference to communities across Dumfries and Galloway, and the new

homes we are building will help transform the lives of those who live in them.

We are working to build new homes in areas of high demand across the region and work closely with Dumfries and Galloway Council to identify opportunities for development. We're committed to engaging with communities to understand housing needs in those areas.
