

**WHEATLEY HOMES SOUTH LIMITED
BOARD MEETING**

**Wednesday 16 August 2023 at 10.30am
Brasswell Office (Dumfries)**

AGENDA

1. Apologies for absence
2. Declarations of interest
3. a) Minute of 24 May 2023 and matters arising
b) Action list
4. Chair and Managing Director updates

Main business and approval

5. Refreshed 2021-26 strategy
6. Homelessness policy update
7. Customer First Centre – independent evaluation
8. Lochside regeneration update (presentation)
9. Performance report
10. a) 2022/23 Financial Statements
b) Annual Internal Audit Report and opinion

Other business

11. Governance update
12. Finance report
13. AOCB

Report

To: Wheatley Homes South Board

By: Alan Glasgow, Managing Director

Approved by: Hazel Young, Group Director of Housing and Property Management

Subject: Refreshed 2021-26 strategy

Date of meeting: 16 August 2023

1. Purpose

1.1 To summarise the key issues considered at the recent strategy workshop and propose for the Board's consideration and approval a revised strategy to 2026.

2. Authorising and strategic context

2.1 Under the Group Standing Orders the Group Board is responsible for the approval of the overarching Group strategy. Under our Terms of Reference, we are responsible for approving our 5-year strategy, within the strategic context of the overarching Group strategy.

2.2 Any changes to Group level targets are subject to Group Board approval. Any such changes require to be considered by this Board so that we can consider the implications for our contribution to any revised target.

2.3 We have completed the first two years of the legacy DGHP strategy and put in place a strong foundation for the remaining three years. As the mid-point of our strategy, the current year will be a key one to focus on delivery, which will be critical in achieving our 2026 objectives.

3. Background

3.1 As part of our strategy renewal and refresh process the Board held a workshop in May. The workshop was focused on reflecting on the current strategy and identifying the key priorities for the refresh of our strategy. As part of this, the Board agreed on the areas of the strategy that should be updated as part of creating our first Wheatley Homes South strategy.

4. Discussion

4.1 We have merged the legacy DGHP strategy with the Board's feedback at the strategy workshop to create a Wheatley Homes South Strategy to 2026. This also reflects the annual review of our performance and strategic measures, 5-year investment programme and 5-year development programme agreed by the Board between February and May this year.

- 4.2 A track changed version of the strategy is attached at Appendix 1. The front end of the strategy has included a new section to more clearly narrate that the strategy is subject to annual review and capture the key changes, set out in more detail below, that we made during this renewal of our strategy. A recap of the key changes is set out below.

Delivering exceptional customer experience

- 4.3 The Board recognised that a number of the key principles within the chapter remain valid, in particular prioritising services which mean the most to tenants, reviewing and improving services with customers and the enhanced use of digital to engage with customers.
- 4.4 A key change in our operating model since 2021 was the creation of the Customer First Centre (“CFC”). The CFC was created to provide exceptional customer experience through quickly and efficiently dealing with customer enquiries at the first time of asking, having specialists on hand where needed and freeing up Housing Officers to spend more time in communities dealing with more complex and neighbourhood issues. This change in our operating model and its focus on delivering exceptional customer experience is now set out in the strategy.
- 4.5 To reflect the significance of the CFC in delivering exceptional service a new KPI for customer satisfaction with the CFC, 90% by 2026, is also included in our strategy.
- 4.6 The Board discussed the importance of the presence we have in our communities and the role annual visits play in achieving this. To reflect this, it is proposed that we affirm as a KPI that our tenants receive an annual visit from their Housing Officer, and this is tracked and reported. This is based on the annual visit being a formal element of how we understand the condition of our assets, identify any issues which should be fed into neighbourhood plans and proactively identify any service issues such as repairs required.
- 4.7 Our approach to and commitment to customer engagement is expanded and emphasised in this chapter also.
- 4.8 Our customer insight consistently identifies the repairs service as our customers’ highest priority. This was a key driver for us bringing in the service in house, to allow us greater control over the service we delivered. This is now reflected in the strategy with a specific section in this chapter covering repairs more widely and repairs being more prominent.
- 4.9 A final area which is now reflected and more prominent in this chapter is the importance of tenant communication. The strategy now explicitly references the importance of communication and the need for customers to have access to the information they need and that it is consistent and easy to access and understand.
- 4.10 It is proposed that the following key changes are made to the KPIs in this chapter:
- Add a target of 90% for customer satisfaction service for the CFC 2026
 - Add annual customer visit measure with a target of 99%.

Making the most of our homes and assets

- 4.11 The Board discussed at its recent meetings and the workshop the importance of considering the wider neighbourhood as part of the Lochside regeneration project. The Board also strongly emphasised that a wider neighbourhood approach, taking into account factors such as transport, health, policing, repairs, investment, open spaces and the environment and new build was equally as important in existing communities as it is in regeneration projects.
- 4.12 Taking this feedback into account a key change in this chapter is the new section with a clear focus on neighbourhoods and plans to develop an integrated approach and a measure to have neighbourhood plans for all our properties. The chapter also now explicitly references our planned area of focus for our Transformation Regeneration Area approach at Lochside, as well as focusing on the wider regeneration and revitalisation of the existing neighbourhood.
- 4.13 The chapter has also been updated to reflect the advancement of the wider Group sustainability work and the changes in the legislative and policy context in relation to net zero and sustainability.
- 4.14 In terms of KPIs within this chapter the proposed key updates are:
- New homes and investment levels updated to reflect the latest 5-year plans (as set out in the separate Delivery Plan paper)
 - KPI added to have a neighbourhood plan for all neighbourhoods by 2026.

Changing lives and communities

- 4.15 The context for this chapter of our strategy has changed significantly, with the cost-of-living crisis creating further challenges for our customers and communities. Many of the elements remain relevant, such as our commitment to homelessness, supporting tenants and communities into jobs and training and leveraging community benefits.
- 4.16 The Board strongly reemphasised that creating jobs and training opportunities is a key priority within this element of the strategy. There are however areas where we want our approach to evolve. During the pandemic, our focus was on immediate support in relation to food security issues through issuing vouchers. We have since discussed a need to engage with partners to develop a more sustainable future model.
- 4.17 Our future focus is now continuing to support customers and communities following the Covid-19 pandemic and the cost-of-living crisis.

Developing our shared capability

- 4.18 We have already delivered the key elements of this chapter, with our new operating model and agile working approach in place. The change of operating model and corporate estate have merited reconsidering the blend between virtual and in person learning.

- 4.19 The key change in this chapter relates to the Community Academy section and is to reflect both our Community Hub approach and the appetite we have seen from tenants to engage with us digitally. This will see our focus primarily be on our Community Academy being delivered digitally.
- 4.20 The strategy also now explicitly references that in developing our Community Academy approach we will consider the use of and signposting to local partners. The Board have indicated that this should be a strong focus to avoid duplication and to ensure that we make the best use of existing organisations before creating any new offerings. Our recent tenant conference was an excellent example of how we can draw together partner organisations rather than try and always be the main provider.

Enabling our ambitions

- 4.21 The digital-related elements of this section have been updated to reflect the need to prioritise areas that we know are priorities for customers such as online services, our website and digital contact channels. The Board also discussed the need for us to leverage digital to improve the repairs service experience and this is now also reflected in the strategy. The rollout of Book It, Track It, Rate It and the online repair service over the remainder of this year will support this.
- 4.22 It also reflects our wider focus on leveraging digital to enable efficiencies as well as having a focus on efficiency more widely to support keeping rents affordable for tenants.
- 4.23 In terms of KPIs within this chapter it is proposed they will be updated as follows:
- Gross rent arrears target and days to let target amended to reflect 2023/24 Delivery Plan
 - 2.9% rent increase removed.

Summary

- 4.24 The strategy has been renewed to reflect Board feedback, which was driven by customer insight we have collected. Customer priorities such as repairs, the CFC and neighbourhoods are now much more prominent within our strategy.
- 4.25 The strategy also reflects our progress to date, changes in our operating context and more explicitly references the updates we have made as part of its renewal this year.

5. Customer Engagement

- 5.1 The strategy workshop focused strongly on customer insight and feedback following customer engagement. These areas are now referenced within our strategy, such as repairs, family homes, communication, and neighbourhoods.

6. Environmental and sustainability implications

- 6.1 There are no specific environmental or sustainability implications associated with this report. The strategy has been updated to reflect this area in further detail as referenced in the main body of the report.

7. Digital transformation alignment

7.1 As set out in the body of the report.

8. Financial and value for money implications

8.1 There are no financial or value for money implications associated with this report.

9. Legal, regulatory and charitable implications

9.1 There are no legal, regulatory or charitable implications associated with this report.

10. Risk Appetite and assessment

10.1 We have no single risk appetite in relation to strategy. Our risk appetite statements reflect each individual element of our strategy.

11. Equalities implications

11.1 There are no equalities implications associated with this report. Equalities and tailoring our services to the different needs of customers and communities is a key theme threaded throughout our strategy.

12. Key issues and conclusions

12.1 The strategy is the first Wheatley Homes South Strategy. It has been strongly influenced by customer insight and is focused on what we know are tenant priorities.

12.2 It also reflects the changes in our operating context, the progress we have made in a number of areas and the review of our strategic measures at the last meeting.

13. Recommendations

13.1 The Board is asked to approve the Wheatley Homes South Strategy to 2026.

LIST OF APPENDICES:

Appendix 1: Wheatley Homes South Strategy to 2026 available [here](#)

Report

To: Wheatley Homes South Board

By: Alan Glasgow, Managing Director

Approved by: Hazel Young, Group Director of Housing & Property Services

Subject: Homelessness policy update

Date of Meeting: 16 August 2023

1. Purpose

1.1 This report provides an update on the progress of our Group Homelessness Policy and highlights our contribution to the recent Scottish Government strategy – *Reducing the Use of Temporary Accommodation*.

2. Authorising and strategic context

2.1 Under our Terms of Reference, the Board is responsible for agreeing matters of strategic significance. Our approach to homelessness, and the contribution we will make in terms of social housing provision, are strategic decisions.

2.2 The Board is also responsible for operational delivery and the specific targets for its own services in relation to homelessness. Day to day operational work will be delegated to the Group CEO under the Group Standing Orders.

3. Background

3.1 More than 35,000 homeless applications were received across Scotland in 2021-22. Around half of these households have a support need and many are families. Figures for the first half of 22-23 showed a 6% rise in applications across Scotland compared to the same period in 2021-22. Dumfries and Galloway experienced a 41% rise in applications during this period, significantly higher than the overall increase across Scotland. As a result of the numbers, many households spend considerable time in temporary accommodation often with more than one move. Almost 14,500 households were in temporary accommodation in September 2022 across Scotland, with most being single person or single parent households. Over 9,000 children were in temporary accommodation at that date. The increasing pressures on homelessness due in part to the global pandemic, the cost-of-living crisis and the war in Ukraine make it highly likely that the 2022-2023 homelessness statistics, when published, will show more households in temporary accommodation than in 2021-2022.

- 3.2 The Scottish Housing Regulator’s thematic review on homelessness services in Scotland in February 2023 warned of an emerging risk of systemic failure in homelessness services in some areas. SOLACE Scotland has recently highlighted the unsustainable pressure on local authority housing in their report *Housing in Scotland: Current Context and Preparing for the Future*.
- 3.3 The Scottish Government has a long-term strategy for tackling homelessness – *Ending Homelessness Together*. Our Group Homelessness Policy which was approved by Group Board in December 2020 and discussed at the Board meeting in February 2021 aligns with these national objectives.
- 3.4 As a result of the increasing pressures on homelessness and the record numbers of households in temporary accommodation, the Scottish Government published a further strategy on 19 July 2023 specifically on reducing the use of temporary accommodation. The need to reduce both the numbers of households in temporary accommodation and the length of time households spend in temporary accommodation is recognised. They have identified a series of actions to ensure sufficient high quality affordable homes in the areas where they are needed, and to provide targeted support for the local authorities facing the greatest pressure.
- 3.5 The Government has particular concerns over the continued use of unsuitable accommodation in the areas with the greatest temporary accommodation pressures and recognises the detrimental effect this has on the health and wellbeing of homeless households, as do the local authorities operating in these areas. Edinburgh has the highest number of reported breaches in the six months between April and September 2022. Glasgow, West Lothian, East Lothian and Fife also had large numbers of breaches. In June this year Glasgow City Council announced that they would stop using one of the City Centre hotels as emergency accommodation. They plan to use this as a template to repeat the process with the other hotels which they use.
- 3.6 Supporting the alleviation of homelessness is a key strategic objective for us and we provide a significant contribution to this national challenge. Our Group Homelessness Policy already reflects most of the actions identified in the Scottish Government’s *Reducing the Use of Temporary Accommodation* strategy, and an update on our progress in relation to these is provided below. The announcement of £60m for a national acquisitions plan as part of the Affordable Housing Supply Programme is a new aspect and our response to this is also discussed below.

4. Discussion

Acquisitions

- 4.1 The Scottish Government has committed to investing at least £60 million from the Affordable Housing Supply Programme in 2023-2024 to support a national acquisition plan. The intention of this is to enable local authorities and registered social landlords to rapidly acquire properties of the right types and in the right places for use as high-quality, affordable, permanent homes. These properties may be purchased from private owners, builders, and landlords. Where landlords are choosing to leave the private rented sector with a tenant in situ, the plan can accommodate the purchase of these properties, where this meets a clear strategic purpose and where the tenant is at risk of homelessness. The Government and local authorities are working on further guidance as to how this will work in practice.

- 4.2 We have had early conversations with Dumfries and Galloway Council as to their intentions regarding the national acquisition plan. The Council has indicated that they will support an acquisition plan and will fund the cost of acquisition plus 50% of any works required to bring up to a lettable standard. They have also indicated that they would prefer to us acquire family homes i.e. 3-bedroom or larger properties as that will align most directly with their greatest pressure of families unsuitably housed in temporary accommodation.

Housing supply

- 4.3 Whilst the ringfencing of £60m from the Affordable Housing Supply Programme for acquisitions is welcomed as a short-term measure to increase the social housing stock, increasing the overall housing supply is an essential long-term objective to address issues of homelessness and other pressures on the housing market. The Scottish Government has reiterated its commitment to deliver 110,000 affordable homes by 2032, of which at least 70% will be available for social rent and 10% will be in remote, rural and island communities. Our contribution to this objective is set out in our 2021-26 strategy *Your Home, Your Community, Your Future* where we commit to deliver over 500 new homes by 2026. Since April 2021 we have delivered 74 new affordable homes.

Stock management

- 4.4 The Scottish Government's *Reducing the Use of Temporary Accommodation* strategy covers a number of areas where they consider how improved stock management by local authorities and registered social landlords, supported by the Government, could maximise the contribution of existing affordable homes to increase housing options for homeless households. These approaches include large scale flipping of tenancies, effective void management and greater allocations of social homes to homeless households, as well as homelessness prevention activity. We are already a very strong contributor and sector leader across all of those aspects, as set out in the Group Homelessness Policy 2021-26.
- 4.5 **Flipping of tenancies** – this refers to the opportunity to convert or 'flip' temporary accommodation to a permanent home to reduce transitions for homeless households where the property is of the right size and in the right location. We had already identified this opportunity within our Homelessness Policy, setting a target of 500 across Group by 2026. To date, in Dumfries and Galloway we have flipped 39 units of temporary accommodation to a permanent home.
- 4.6 **Void management** – effective void management has always been a priority for us and our performance on void turnaround is considerably better than the Scottish average. To date this year, we are achieving 11.67 days to relet a property compared to an average of 56 days for members of the Scottish Housing Network in the 2022/23 ARC return. The Government has accepted the argument, made by us and other housing providers, that delays in the reconnection or resetting of energy meters in void properties are negatively impacting on housing availability for occupation and contributing to the backlog in temporary accommodation. They have committed to bringing utility companies round the table to identify ways to improve this situation and we will continue to stay close to these discussions.

- 4.7 **Allocations** - the Scottish Government wants to see a greater share of allocations of social rented homes to homeless households in order to reduce the pressure on temporary accommodation. We have always been a sector leader in terms of both the number and percentage of properties which we make available to homeless households. Our Group Homelessness Policy commits to delivering 10,000 homes for homeless households by 2026. The Group is on track to meet this with 5,430 delivered across by the end of June 2023. Within our 2021-26 strategy *Your Home, Your Community, Your Future* we have committed to meeting an agreed contribution to accommodation for homeless households in Dumfries and Galloway which has seen us deliver 993 since 2021. Within our strategic agreement with Dumfries and Galloway Council we have set out an ambition to deliver 2,000 homes for homeless households over the period 2023-2028.
- 4.8 Our commitment as part of Homes4D&G partners is to provide at least 50% of our lets for homeless households in 2023/24. We responded positively to this request as at the end of June we have let 40.16% of our homes in Wheatley Homes South to homeless households. We have had a disconnect between our available homes and demand from homeless households. We have been working with the local authority to increase our percentage lets to homeless households.
- 4.9 In addition, in 2022 as part of the transition to choice-based letting, we undertook a comprehensive review of our allocations policy in conjunction with our customers. This included a review of the process we use to help match homeless households to available homes. The feedback we received from customers and other stakeholders was very positive about the helpfulness of this approach and we have now continued this as a permanent part of our policy.

Prevention of homelessness

- 4.10 Clearly preventing households from becoming homeless and therefore coming into temporary accommodation in the first place is equally as important as moving people from temporary to settled accommodation. Our Group Homelessness Policy has a strong commitment to tenancy sustainment and homelessness prevention. We have already achieved significant progress in this including a redesigned homelessness response to help end the repeat cycle of ASB, evictions and repeat homelessness. This involves early review of cases by our teams to help ensure appropriate support and discussions at tenancy start. It is supported by our commitment to peaceful communities and employment and training opportunities for customers who have been affected by homelessness, as well as our wider approach to improving tenancy sustainment rates.
- 4.11 Our prevention and solutions approach to anti-social behaviour demonstrates how using the skills of all of our teams helps to provide a successful outcome for some of our most vulnerable customers. The approach is led by our Community Improvement Partnership and ensures that we take time to assess the root cause of issues as well as dealing with the immediate problems. This includes early intervention in cases identified from our new review approach. This approach helps us to identify customers who may need additional supports in place to try to prevent a repeat cycle of homelessness.

- 4.12 Our award winning Revive project was launched in 2021 and helps to support women fleeing violence. This project helps women to find accommodation and support in different local authority areas, where they choose this option. The project includes access to funding, furniture and wraparound support to help ensure the move is as easy as possible. This project won the “Excellence in housing innovation” category at last year’s Chartered Institute of Housing Awards.
- 4.13 Work to expand MyHousing to all our Lowther properties will be complete by Autumn. This will help to ensure that customers applying for social rented homes can also see availability of other tenures where that might be suitable for them (particularly those who have no priority under our policy). It also provides an accessible route to ensure that those looking for private or -mid-market rent can see everything that is available.
- 4.14 There are a number of other aspects of work underway. The review of our furnished lets service will ensure that it provides best value for money while meeting customer needs. Across the Group we have a range of nomination and lease agreements with local authorities. During this year these agreements will be reviewed and updated to ensure they provide the best arrangements for the customer, the Group and our partners.

5. Customer Engagement

- 5.1 The main element of engagement in 2022-23 was around the allocations process, one of the key changes was to consult on a potential change to match homeless customers to properties. This approach had been piloted during the Covid pandemic. We consulted specifically with customers who had been homeless to understand their views. 86% of those customers agreed the matching process was helpful in supporting them to find a home. This approach has now been fully implemented as part of the new policy which was formally launched in March 2023.
- 5.2 We explored the allocations customer journey during 2022 using an external company and external staff. This evaluated both the general needs customer journey and the homeless customer journey and further demonstrated that the matching process was working. The next stage will be to undertake further mapping with customers.
- 5.3 The Group tenant scrutiny panel will shortly be undertaking a “spotlight” session on allocations. This will go through the legal requirements of the process, priorities and performance.
- 5.4 Finally, MyVoice for allocations is due to go live at the end of this month. This will provide real-time feedback from customers as they move through the allocations process – applying for and getting their new home.

6. Environmental and sustainability implications

- 6.1 There are no direct environmental and sustainability implications from this update.

7. Digital transformation alignment

- 7.1 Our Group allocations service My Housing is our only fully digital customer service, and the roll-out of this in April 2023 has enabled our newest partner in Group to take advantage of the benefits of this platform for their customers.

8. Financial and value for money implications

- 8.1 We have identified £6million in the development budget which will be used to support our acquisition plans and any necessary investment works.

9. Legal, regulatory and charitable implications

- 9.1 Registered Social Landlords have a legal duty to assist local authorities in their homelessness duties. We are also required to report on a range of related indicators in the Annual Return on the Charter.

10. Risk Appetite and assessment

- 10.1 Our risk appetite for service improvement is “open”. This means we are prepared to take the risk of adopting the approach that is most likely to result in successful delivery of our service objectives.

11. Equalities implications

- 11.1 An Equalities Impact Assessment has been carried out for the Homelessness Policy. This assessment reviewed the impact of actions against the protected characteristics identified in equalities legislation. It showed that the Policy will have a positive or neutral impact on all characteristics. The Assessment is currently being updated in preparation for the next review of the policy.

12. Key issues and conclusions

- 12.1 The Scottish Government has recently published a new strategy *Reducing the Use of Temporary Accommodation* which includes a range of approaches to reduce the number of homeless households in temporary accommodation and also the length of time households spend in temporary accommodation.
- 12.2 We are a strong contributor to the national objective of alleviating homelessness, and most of the approaches outlined in this strategy also feature within our Group Homelessness Policy. We are on track to deliver the 10,000 homes for homeless households which is a key commitment in the Group 2021-26 strategy *Your Home, Your Community, Your Future*.
- 12.3 As part of their new strategy, the Government has announced a ringfenced fund within the Affordable Housing Supply Programme of £60 million for market acquisitions by local authorities and RSLs for social housing. We have been carrying out early engagement with local authorities to understand how we can access this funding to deliver more social rented homes in our areas.

13. Recommendations

- 13.1 Board is asked to note this homelessness update and make any comment.

To: Wheatley Homes South Board

By: Alan Glasgow, Managing Director

Approved by: Laura Pluck, Group Director of Communities

Subject: Customer First Centre – Independent Evaluation

Date of Meeting: 16 August 2023

1. Purpose

- 1.1 The purpose of this report is to:
- outline the findings of the independent evaluation of the first full year of the Customer First Centre (“CFC”) and;
 - outline the recommendations highlighted in the evaluation report and the response to these.

2. Authorising and strategic context

- 2.1 Under our Terms of Reference, our Board is responsible for setting our 5-year strategy and monitoring our performance. The Group Chief Executive is responsible for implementing our strategy. The report provides the findings of the evaluation of the group-wide CFC, which is a strategic project, following its first full year of operation.
- 2.2 As the first point of contact for our customers the CFC is critical to achieving our strategic aim of; ‘Delivering Exceptional Customer Experience’ and 90% overall customer satisfaction.

3. Background

- 3.1 The CFC was created in December 2021 and launched to our customers in April 2022 as a fundamental part of our revised operating model. A key aim of our new operating model was to ensure that our frontline teams were visible and even more present within their local communities by directing everyday interactions with customers to our new specialist and enhanced CFC. The CFC is focused on resolving 90% of all queries and service requests at the first point of contact. The CFC currently offers a service to customers 24/7 across 365 days of the year.

- 3.2 Prior to the launch of the CFC there was a basic call centre operating across all subsidiaries with a headcount of c60 call handlers. The launch of the CFC saw the headcount of Customer Service Advisors increase to 150 and the creation of two additional specialist support teams within the CFC comprising of Housing Officers and Lowther Agents.
- 3.3 In establishing the bespoke Advisor and Specialist model it was envisaged that the CFC would be much better equipped to provide an exceptional customer experience while responding to and more importantly resolving customer issues. This would enable housing officers to invest more time in enhancing the face-to-face service offering in customers' homes and communities.
- 3.4 As the 'front door' for customers to access our wide suite of services, the quality of the CFC operations and performance is of increasing importance in driving overall customer satisfaction.
- 3.5 An independent evaluation of the CFC following its first full year of operation was approved by the Group Board as part of the strategic delivery plan. In March 2023 we commissioned Ennovate Consultancy to carry out the evaluation. The project brief required Ennovate to:
- Carry out a desktop review of the CFC's performance against targets over the first year of operation.
 - Assess the CFC across its functions and role as a Contact Centre; and
 - Highlight any opportunities for improvement.
- 3.6 Ennovate is a consultancy firm operating in all aspects of Contact Centre Operations. The report author is an experienced Contact Centre professional with over 30 years' experience, operating at an Executive level for the last 10 years across both the public and private sectors. Ennovate aims to work with clients to drive sustainable improvements aligned with their specific corporate goals.

4. Discussion

- 4.1 Ennovate began its review at the end of March 2023. The review was structured and included an assessment of operational data, with multiple interviews and focus groups with a range of CFC staff and senior leaders across the Housing and Property Directorate. The evaluation report contains a wide range of both strategic and detailed operational points, with the key issues summarised in this report. Recommendations for improvement from the evaluation are summarised across each key focus area and are also detailed below. A copy of the full report is available on request.
- 4.2 Overall, Ennovate assessed that there has been significant progress in developing the CFC in its first 12 months of operations. **'Overall, a very strong first year, implementing and embedding new people, new processes and systems in a relatively short space of time.'**

- 4.3 The report outlines that robust foundations have been laid that will pave the way for further evolution of the CFC including the significant strengthening of the senior team and investment in the operational leadership team. **‘Over the last 6 months the Leadership Team has been strengthened, with key appointments and some strong hires bringing a broad and deep Contact Centre experience, putting the CFC in a position to further maximize the opportunity to continuously improve and develop the CFC offering.’**
- 4.4 Performance was outlined as having been strong, with marked improvements across all key metrics and in some areas, bucking the national trends for Contact Centres. Nationally Contact Centres are reporting an increase to c9% of calls being abandoned and Average Wait Times increasing to 100 seconds with some organisations reporting Average Wait Times of 350 seconds.
- 4.5 Since the CFC is a group-wide service, performance is measured at that level. Key group-wide performance highlights include:
- 8% increase on calls being offered and overall, a 23% increase in inbound calls handled.
 - 18% increase in the number of calls being answered in 30 seconds.
 - c75% reduction in Average Wait Times to <60 seconds.
 - c75% reduction in calls being abandoned to 4.7%.

Metric	2022/23	2021/22
Call volume (inbound)	854,527	793,751
Grade of Service	77%	58%
Average Wait Time	58 seconds	216 seconds
First Contact Resolution	89%	n/a
Average Handle Time	509 seconds	499 seconds
Webchat	15,578	12,196
Headcount	147	68

- 4.6 The evaluation assessed performance in key focus areas across the CFC functions with relevant recommendations for improvement included in each section. Overall, there are 17 recommendations for improvement, all without exception which are already being addressed or are detailed in the CFC or wider business improvement plans for 2023/24. The key areas in focus are outlined and the findings are summarised below:
- The Operating Model;
 - Demand and Capacity Planning;
 - Customer Insight and Quality;
 - Reporting, Analytics and Metrics;
 - Channels and Self-serve;

The Operating Model

- 4.7 The new Advisor and Specialist model and increased headcount of advisors was viewed as a real positive change which is making a difference to the CFC's ability to respond to customer demand, resolve customer issues promptly and improve the customer experience. ***'The Specialist Teams... has really helped to get more complex customer issues resolved, more quickly.'*** This is not only improving the customer experience and the time taken to resolve their issues but also supporting a reduction in the average time taken to handle a call and as such freeing up advisors to answer calls more quickly.
- 4.8 Stakeholder feedback was cited as being almost universally positive with senior leaders and frontline staff clear about the benefits the operating model gives while noting that there is an opportunity for further support to be offered to frontline teams as the CFC develops and methodically and systematically drives out waste demand or service inefficiency.
- 4.9 This section recommended 4 key areas for improvement which centred on:
- Continued investment in staff development.
 - Knowledge Management.
 - Review of the hybrid working arrangements.
 - Approaches to customer resolution and continuous improvement.
- 4.10 The report highlighted the high degree of complexity that has arisen from the changes within the Group RSLs and other subsidiaries over time, along with the pace of change in the organisation and the scope of service offering, meaning that the breadth of knowledge and skill required to be able to successfully respond and resolve 90% of customer issues is a constant challenge. It is therefore critical that staff are appropriately multi-skilled and supported to continuously develop their knowledge while having robust tools in place to support them in their daily interactions with customers.
- 4.11 In the last year an enhanced learning and development programme for the CFC teams with dedicated CFC Academy specialists has been introduced, working hand in hand with the leadership team to ensure this continues to develop and flex to meet staff needs. We have commenced work to fully review the end-to-end learning and development programme from induction to exit, across all roles in the CFC to ensure that it is effective and fit for purpose while balancing the need for staff to be available to interact with customers for the majority of their working day.
- 4.12 Knowledge Management systems across the Contact Centre industry are considered essential in minimising training efforts and providing advisors with clear direction on the range of customer issues. CFC staff have a number of ways that they access knowledge when interacting with a customer including:
- knowledge articles on ASTRA;
 - the intranet;
 - our website;
 - sharing knowledge and experience through teams;
 - specific project guidance; and
 - written daily briefing by leads.

- 4.13 While this works in the main, as reflected in Customer Satisfaction with CFC interactions at 4.3/5 a Knowledge Management Framework is under development which will set out our approach to managing knowledge within the CFC, including: how it is received and shared from across the business; how we ensure that knowledge can be easily accessible and succinct yet sufficient; and the processes for maintaining and updating this knowledge. The first iteration of the framework will be concluded and implemented in the Autumn with a full review of our approach as we implement our new Contact Centre Platform in 2024 which has specific knowledge functionality within it.
- 4.14 The CFC (in its previous iteration) successfully worked from home throughout the pandemic with staff appropriately equipped to do their role from their home. As we established the new operating model including the revised CFC, hybrid working was adopted full time. This, along with the suite of terms and conditions, has allowed us to recruit with ease. The approach to hybrid working to date has been on a demand-led basis with staff coming to the office when there is a specific need such as collaboration, training, or staff events. We will review this approach to ensure that the CFC performance is not being hindered in any way.
- 4.15 The evaluation highlighted the need for further strengthening the resolution pathways that have been established in the first year of operations to ensure that the correct staff are dealing with the most relevant service queries at all times. A review of the guidance outlining what should be handled by different roles within the CFC is currently being carried out and will be revised further following work with Vanguard – expert consultants in business processes and productivity – which is planned during the Summer to review customer journeys within the CFC.
- 4.16 While our housing and property teams were very positive about the CFC, the evaluation highlighted the opportunities to continue to work together to ensure there is a clearly defined set of joint priority activities to ensure the CFC continues to evolve in the right way. Our senior housing staff work closely with the CFC on a daily basis and meet more formally with them on a monthly basis at a minimum to discuss areas for improvement and agree on priority actions.
- 4.17 CFC staff, both advisors and specialists, have attended our staff events in recent months to build relationships and gain a deeper understanding of the importance of their respective roles in supporting our ambitions.

Demand and Capacity Planning

- 4.18 The report highlighted the critical nature of the resource planning functions to the smooth running of any Contact Centre. It is crucial that customer demand is understood across every operating hour so that we can have the right people in the right place at the right time. There are several contributing factors to good resource planning as highlighted in the evaluation including:
- Appropriate resource;
 - Skilled planners;
 - Appropriate planning processes;
 - Robust workforce management systems; and
 - Processes for managing and controlling business activity that is likely to create a short-notice influx in demand.

- 4.19 The report draws attention to the need to develop the resource planning function across all these areas further to allow for a more robust approach to resource planning generally and maximise the efficiency of resources. Allowing for medium to long-term forecasts of service levels whilst resourcing anticipated peaks in demand. In the last 6 months, the resource and planning team has expanded. This includes the appointment of an experienced Head of Resource and Planning which the evaluation acknowledges as a positive move to boost this discipline further within the CFC.
- 4.20 Within the first weeks of the expansion of the Resource and Planning team they have already made strides towards a more solid approach to resource planning including but not limited to:
- A deep dive into call demand profile and reviewed against staff shift profile making alterations to patterns of work to better reflect demand requirements.
 - Developing a performance metric scorecard relating to all channels within the contact centre. This means they are no longer reviewing and talking about just voice, but digital channels also.
 - Creating a system that more easily monitors day to day performance, freeing up valuable resources to focus on longer term planning and analysis.
 - Setting up a planning process for the team to analyse the previous day's performance and link with operational leads daily on this and any actions required.
 - Identifying development opportunities for the resource and planning team through membership of the Contact Centre Forum.
- 4.21 A formal Resource and Planning Strategy is being developed for the CFC with the first draft being prepared now. This will consider the year-round need in the CFC and what approaches can be developed to ensure the CFC can continue to meet demand across all channels when it fluctuates. This will include a cross-divisional approach to managing and monitoring business activity which impacts demand in the CFC. Discussions exploring potential solutions to maximise resources have included options such as annualised contracts, an outsourcing partnership or the use of other teams within and out with the CFC for periods of exceptional demand. Agreed approaches will be reflected in the strategy.
- 4.22 The evaluation highlights that the current Workforce Management (WFM) tool currently used by the resource planners is both limited and is approaching the end of life. While the WFM tool works, it is frequently augmented using spreadsheets, has no self-serve function for staff to manage their own work schedule and does not support planning for channels other than telephony. A new Contact Centre Platform is now being procured and over the next 18 months will address all of the areas highlighted throughout this section of the report.

Customer Insight and Quality

- 4.23 In the Contact Centre setting Quality Management (QM) is crucial to delivering consistently high standards of service and supporting staff and the leadership team to identify key learning needs for individuals and as a collective team in addition to evidencing potential issues with processes. A key part of this entails listening to call recordings to review staff performance against clearly set out criteria and expectations. The evaluation report notes that the mechanisms for Quality Management within the CFC have been limited until recently but highlights that progress has been made with agreed Quality Assessment Criteria now set and levels of monitoring agreed and in place.
- 4.24 Quality Management is the direct responsibility of the 8 Team Coordinators who line manage the Customer Service Advisors and, as described above, the process of monitoring quality is manual. Further improvements to Quality Management will be implemented through the introduction of the new Contact Centre Platform. This includes the ability to transcribe call recordings to pull out customer sentiment through the mining of natural language and issuing quality scorecards to ensure advisors hit the same consistently high standards of customer experience. This will mean better reporting on trends and bespoke training and development plans for individual advisors based on the information gathered.
- 4.25 The evaluation assessed that there has been a significant step forward in customer insight in the CFC since the introduction of My Voice – the customer sentiment tool. After a successful 12-week pilot early in 2023 the tool is routinely being used to survey customers who contact the CFC and gather levels of satisfaction and comments on the service from those customers. A healthy 23 – 25% response rate has remained steady across the wider Group throughout the last 4 months with satisfaction levels a strong 4.3/5. The CFC will continue to build the sentiment dashboards within the tool which will assist them in clearly identifying the overall sentiment of our customers and where we need to target improvements. The dashboards are deemed unreliable until approximately 6,000 individual pieces of feedback have been received. We expect to reach this throughout the second quarter.
- 4.26 The review highlights the need for clear structures across the organisation as we widen the use of My Voice for collecting customer insight, analysing this, and ensuring it is used routinely to inform service improvements. The approach for analysing and assessing customer insight has been established with business leads identified to take responsibility for turning insight into actionable improvement plans across each pillar of insight. The Customer Experience Team within the CFC have responsibility for the process of coordinating the management of the CFC specific sentiment and feedback. As the tool is expanded across different pillars, they will also have responsibility for overseeing the collection and dissemination of insight across the organisation and for retaining an overview of overall customer sentiment gathered through My Voice.

Reporting Analytics and Metrics

- 4.27 The evaluation assessed that there is currently a comprehensive suite of reporting tools that are used within the CFC to enable Operational Leads and Team Coordinators to review and understand the performance of the CFC and individual teams within it.
- 4.28 A number of actions were recommended to improve and enhance reporting including; evolving performance dashboards to include all channels used within the CFC, creating a scorecard that brings all business intelligence together in one place for CFC leads and harnessing opportunities being presented by the replacement of the telephony platform.
- 4.29 As described earlier in the report the expanded Resource and Planning team have already developed a wider set of reporting to routinely include digital channels. The new platform currently being purchased already has a built in a suite of 40 reports that CFC will be able to use, with an ability to build as many bespoke reports as is required using the data within the platform. As part of the project to replace the current platform we have appointed an additional CFC data analyst to bolster capacity in this area. As we implement the new platform, we intend to revise our CFC Performance Framework overall based on new capabilities within the system.

Channels and Self-serve

- 4.30 The vast majority of our customers contact into the CFC continues to come via the telephony channel with a relatively small increase in the use of emails, webchat and self-serve throughout the last year. The evaluation report highlights that the time is right to define and agree a target operating model and associated channel strategy for the organisation more clearly. This would focus on providing our customers with choice and helping to drive successful outcomes for both the customer and the business and the need for a robust marketing programme which reflects the agreed strategy.
- 4.31 Our 2021-2026 strategy already has a suite of targets linked to increasing the use of digital services by 2026 while ensuring none of our customers are left behind, and as such this has been an area of focus for the business over the last 9 months. A number of actions have been taken throughout this time with additional actions planned for the coming 12 months to reflect our agreed targets.
- 4.32 Key actions taken already include:
- Improvements to the email routing and inboxes available and publicised for customers with dedicated staff managing email to have a more consistent and improved customer experience
 - Review of webform categorisation to direct customers to the most appropriate channel
 - Reintroduction of the use of web self-service for specific service requests including repairs
 - Improved navigation within web self-service for ease of use;
 - 2500 Group customers engaged to garner insight and drive priority for improvements across our digital services offering

- A small-scale test of change of a dedicated digital team within the CFC has commenced. The impact and outcomes from this will be monitored over the next 12 weeks with a final review at the end of the test period towards the end of October.
- 4.33 The implementation of the new Contact Centre Platform throughout 2023/24 will pave the way to create opportunities to improve customer contact options and steer our channel strategy as we further develop this.
- 4.34 As outlined at the start of the report the overall assessment one year on is that the CFC has had a strong start in its first 12-18 months of operations. There are a number of actions recommended that will strengthen and enhance the CFC performance, all of which have already been addressed or are part of the wider CFC annual improvement plan for 2023/24.
- 4.35 As the CFC matures and evolves the introduction of the new Contact Centre Platform is an opportunity to leverage additional capabilities to realise the full potential of the CFC in offering exceptional customer experience.

5. Customer Engagement

- 5.1 Customer feedback from our “My Voice” electronic feedback tool informed the findings of the report and helped to demonstrate the current levels of satisfaction with the service offered by the CFC. Customer engagement has been carried out recently on Digital Services and will continue to inform the development of digital services within the CFC.

6. Environmental and sustainability implications

- 6.1 The CFC is based across Lipton House in Glasgow and Brasswell in Dumfries, with staff working from home and office as part of our hybrid operating model. Vicarious carbon targets of home working are also considered when Planet Mark assesses the carbon footprint of our corporate estate. Overall, the carbon footprint from our corporate estate is on an improving trend.
- 6.2 Both Brasswell and Lipton House offices have recently been transferred over to 100% renewable energy supplies alongside the remainder of our corporate estate. This has been achieved by working with EDF Energy. Four electric vehicle charging outlets have recently been installed at Lipton House.
- 6.3 The eventual move to a cloud-based telephony platform (Storm) by Q1 of 2024/25 will mean that we will expend less energy by ceasing to operate the current on-premise telephony platform at Lipton House.

7. Digital transformation alignment

- 7.1 Our Strategy sets a clear direction and is underpinned by digital progression. The CFC currently manage contact with customers across emails, webforms and webchat as part of their daily interactions.
- 7.2 The evaluation sets out recommendations to leverage digital and self-service interactions through harnessing the opportunities presented by the new CFC Platform and the development of a clear channel strategy for the CFC and the wider organisation.

8. Financial and value for money implications

- 8.1 The review acknowledges that the investment in staff resources has delivered improved customer metrics such as Grade of Service and Average Handle Time and Average Wait Time. This makes for a quicker and more efficient service to our customers.
- 8.2 The upcoming Contact Centre Platform will further improve upon these metrics and offer an increasingly personalised, effective and efficient service.

9. Legal, regulatory and charitable implications

- 9.1 There are no legal, regulatory or charitable implications arising from this report.

10. Risk Appetite and assessment

- 10.1 The independent evaluation of the first year of the CFC supports our ambitions across the strategic theme of *Delivering Exceptional Customer Experience*. Our risk appetite in relation to operational delivery for the outcomes across this theme is open.
- 10.2 This means that we encourage innovation and, in some cases a desire to ‘break the mould’ and challenge current working practices. The findings and suggested areas for further development outlined in the report are consistent with these risk appetites.
- 10.3 The key risks arising from this report are:

Failure to progress key areas for improvement impacting customer experience and satisfaction. A CFC Improvement Plan has been developed by the leadership team and will be progressed over the next 12 – 15 months. The plan includes action to address any areas for improvement highlighted within the evaluation.

11. Equalities implications

- 11.1 There are no equalities implications arising directly from this report. As key actions progress, we will consider the need for Equalities Impact Assessment at the appropriate juncture.

12. Key issues and conclusions

- 12.1 The Customer First Centre was created in December 2021 and launched to customers in April 2022 as a fundamental part of our revised operating model. A key aim of our new operating model was to ensure that our frontline teams were visible and even more present within their local communities by directing everyday interactions with customers to our new specialist and enhanced Customer First Centre (“CFC”) with the aim of resolving 90% of all queries and service requests at the first point of contact. The CFC currently offers a service to customers 24/7 across 365 days of the year.
- 12.2 As the ‘front door’ for customers to access our wide suite of services, the quality of the CFC operations and performance is of increasing importance in driving overall customer satisfaction.

- 12.3 An independent evaluation of the CFC was carried out over April and early May. The evaluation outlines that the CFC has had a strong first year with much evidence to support that the new model is helping deliver an improved customer experience across key metrics.
- 12.4 A number of recommendations were made throughout the report which focus on further evolving and improving the efficiency and effectiveness of the CFC as the first and main point of contact for our 10,500 customers.
- 12.5 The areas for improvement were already identified by the leadership team responsible for the CFC and as such many actions are already underway or are planned which reflect the report's findings. The progression and evolution of the CFC are critical to improving the customer experience and customer satisfaction.

13. Recommendations

- 13.1 The Board is asked to note:
- 1) the findings of the independent evaluation of the first full year of the Customer First Centre; and
 - 2) the recommendations highlighted in the evaluation report and our response to these.

LIST OF APPENDICES:

None

Report

To: Wheatley Homes South Board

By: Alan Glasgow, Managing Director

Approved by: Pauline Turnock, Group Director of Finance

Subject: Performance Report

Date of Meeting: 16 August 2023

1 Purpose

1.1 This report presents an update on performance delivery against targets and strategic projects for 2023/24 as of the end of quarter one.

2 Authorising and strategic context

2.1 Under our Terms of Reference, the Board is responsible for monitoring performance against agreed targets.

2.2 We measure progress with the implementation of our five-year strategy via the Group Performance Management Framework (“PMF”) agreed in June 2021. Given the need to remain agile and flexible through the life of the strategy our PMF is subject to annual review. The Group Board agreed an updated programme of strategic projects and performance measures and targets for 2022/23 at its meeting in April 2023. This Board subsequently agreed our own specific performance measures and targets at its meeting on 24 May 2023.

3 Background

3.1 This report outlines our performance against targets and strategic projects for 2023/24. Unless specified otherwise, results for all measures are based on year-to-date figures.

3.2 This includes progress with those measures that will be reportable to the Scottish Housing Regulator as part of the Annual Return on the Charter 2023/24. Complaints performance, including Charter and the Scottish Public Sector Ombudsman (SPSO), will be reported bi-annually (at Q2 and Q4).

3.3 This report also now includes the new Customer First Centre (“CFC”) measure based on customer satisfaction with calls, the CFC Customer Satisfaction (“CSAT”) score which, as with Book It, Track It, Rate It, asks customers to score the CFC on a 1-5 scale.

4 Discussion

Delivering Exceptional Customer Experience

Customer First Centre

- 4.1 The Customer First Centre (“CFC”) is now firmly established as a core part of our new operating model and has recorded a strong baseline for customer satisfaction through the newly introduced CSAT score. Year to date results for 2023/24 as at the end of Quarter 1 are presented in Table 1.

Table 1

Measure	2022/23	2023/24		Status
	Value	Value YTD	Target	
WHS - CSAT score (customer satisfaction)	New	4.4	4.5	
WHS - % calls answered <30 seconds (Grade of Service)	75.43%	65.57%	Contextual	N/A
WHS - Average waiting time (seconds)	97.50	84	Contextual	N/A
WHS - Call abandonment rate	7.70%	7.27%	5%	
Group - % first contact resolution at CFC (Customer Service Advisors)	88.99%	85.79%	90%	
Group – Percentage of CFC customer interactions that are passed to Housing and Lowther staff for resolution	6.25%	7.07%	<10%	

- 4.2 We now offer customers calling the CFC, with the exception of repairs calls, the opportunity to provide feedback on their interaction. We must hold a mobile number or email address to issue the survey, with customer satisfaction scored out of 5. Our CFC CSAT score is 4.4 at the end of quarter 1 and is considered a strong baseline. The CFC has a framework for analysing feedback and implementing initiatives to address any areas that may require improvement, informing progress towards the CSAT target of 4.5/5.
- 4.3 At the end of the first quarter, the CFC has answered 28,137 calls from our customers with 65.57% of these answered within 30 seconds, and both the average wait time and abandonment rate for our customers improved to 84 seconds and 7.27% respectively. While still above the 5% target, abandonment is below the industry benchmark of c9%.

- 4.4 While we do not have a set target for ‘Grade of Service’ we aim to answer 80% of all calls in 30 seconds. There are 3 factors that have impacted the ‘Grade of Service’ in the first quarter; increase in call demand against forecast at certain periods, an increase in the ‘Average Handle Time’ for calls and a reduced number of ‘call handling’ hours available. CFC performance is monitored and reviewed daily by the resource planning and operations leads, creating relevant action plans reflective of performance with a current focus on (1) reducing Average Handle Times by 60 seconds through increased knowledge and skills development and (2) increasing the amount of ‘call handling’ hours available. There are several factors that impact the call handling hours available including but not limited to, time spent on learning and development, team meetings, group-wide collaboration sessions and assistance time required by call handlers either during or after calls to conclude service queries.
- 4.5 Across the Group, CFC Customer Service Advisors (CSAs) have resolved 85.79% of calls handled at first contact. The My Repairs Team continues to be a valuable asset for the CFC in dealing with more complex repairs calls. While this means CSAs do not resolve these at first contact, the aim is to ensure customers experience an improved end to end service. In addition, the CFC continue to support Housing and Lowther staff to ensure efficient resolution, passing only approx. one case per Housing Officer each week.
- 4.6 We have introduced a Digital Team in the CFC to increase our capacity to handle digital interactions and keep customers in digital channels. The purpose of the dedicated team is to improve customer experience across digital channels and determine whether more efficient and effective use of digital channels reduces telephony demand. The role of the test team is to offer and promote webchat services, triage and manage inbound emails and online messages redirecting appropriately where first contact resolution is not possible and encourage customers with Web Self Service (WSS) to make more use of these services. The impact of this team is being monitored and will be formally reviewed at the end of the test period in late October.

Tenancy Sustainment

- 4.7 We continue to support our new customers to sustain their tenancies and in particular work with Dumfries and Galloway Council to support new customers referred by them. We are currently only 10 of 880 sustained lets short of target for the Scottish Housing Regulator’s Charter measure and better than target for our revised indicator, which excludes deaths and transfers to other homes in the Group.

Table 2

Tenancy Sustainment	Charter YTD	2023/24 Target	Revised YTD	2023/24 Target
WHS	86.82%	88% 	89.20%	89% 

Making the Most of Our Homes and Assets

New Build Programme

- 4.8 Our target is to deliver a total of 31 new Social Homes in 2023/24. No handovers were due year to date to the end of Q1.

- 4.9 Work at Curries Yard is progressing well, with the first handovers due later in 2023.

Planned to Reactive Spending

- 4.10 We set a strategic result to achieve a ratio of 60% planned to 40% reactive spend on maintaining our properties over the life of our strategy. The business plan assumes a 53% forecast for planned spend in 2023/24. Spend figures are subject to investment programme profiling throughout the year. Planned Spend includes core capital programmes, cyclical maintenance, and compliance.
- 4.11 As shown in Table 6, our planned spend ratio is now 23.2% year to date to the end of quarter 1. This has reduced from the position to the end of the previous year (41.3%). The increase in variance for planned spend compared to full year 2022/23 is the result of prioritisation of reactive repairs and the ongoing high repairs demand and means that we are unlikely to achieve 60% target or 53% business plan forecast by year end.

Table 3

Percentage Spend	2022/23 Planned spend	2023/24 YTD Planned	2023/24 YTD Reactive
WHS	41.3%	23.2%	76.8%

Volume of Emergency Repairs

- 4.12 The table below shows our position against the strategic result to reduce the volume of emergency repairs by 10% by 2026 compared to the updated baseline year of 2022/23. The target for 2023/24 is a reduction of 3.34%.
- 4.13 Emergency repair numbers are 187 less than the same point in 2022/23, a variance of - 4.98% and are on target. While customer demand has an impact on this measure, work is continuing with the CFC to ensure emergency repairs are diagnosed appropriately.

Table 4

Completed emergency repairs	YTD 22/23	YTD 23/24	Variance
WHS	3,757	3,570	-4.98%

- 4.14 We also have a strategic aim to reduce emergency repairs as a percentage of all reactive repairs and at the end of quarter 1, we are over the 35% target at 38.84%, an improvement on 43.89% in 2022/23.

Repairs Timescales and Right First Time

- 4.15 Our average time taken for emergency repairs is 2.55 hours at the end of Q1, well within the 3-hour target. This compares favourably to an average of 2.91 hours in 2022/23.
- 4.16 The below table also shows the average time taken for non-emergency repairs at 7.01 days, just above this year's target of 7 days. This is virtually the same as the 2022/23 average of 7.02 days.

Table 5

Repairs completion timescales (Charter)	Emergency (hours)		Non-emergency (days)	
	Target	YTD Value	Target	YTD Value
WHS	3.00	2.55 	7.0	7.01 

- 4.17 The % of Repairs Right First Time year to date to the end of Q1, 93.76%, has recorded an improvement on the position reported last year, 91.09%, and is meeting the 90% target.

Table 6

Percentage of repairs right first time (Charter)	2022/23	2023/24 YTD	Target
WHS	91.09%	93.76%	90% 

Repairs Satisfaction

- 4.18 The target for 2023/24 has been increased from 89% last year to 90% this year. We are just below target at 87.04%.
- 4.19 This is based on a rolling 12-month period and is an improvement at year end 2022/23 when 83.15%. Satisfaction is based on text messages to customers issued after completed repairs and have generated 1,289 survey responses in the 12 months to end of Q1, almost double the 647 we had in 2022/23.

Table 7

Repairs Satisfaction	Current value	2023/24 Target
WHS	87.04%	90% 

- 4.20 As previously reported to Board, there is a range of service improvement activities underway which will in turn lead to improved communication with customers and improvements in service performance and, longer term, satisfaction levels with the service.

Responsive repairs: Damp and mould

- 4.21 We continue to strengthen and improve our approach to mould related requests from customers. For every case of mould reported an inspector will categorise it as follows:

Category 3 – Requires a fungicidal wash down and decoration (completed in one appointment)

Category 2 – As with category 3 but covering a larger physical area which will require a longer appointment to complete (completed in one appointment)

Category 1 – More extensive mould with underlying issue which will require follow on repairs required after the initial treatment of the mould. This will require more than one appointment or a more structural fix following the treatment of the mould. Any cases that would meet the UK Government’s “Housing Health and Safety Rating System (HHSRS)” definition of posing a serious and immediate threat to health were the tenant to remain in situ with untreated mould are also included under this category.

4.22 At 24 July, we had 22 live cases for mould and 16 live damp and rot repairs. A breakdown of the current status of the 22 live mould cases is as follows:

Table 8

Total Live Mould cases	Category 3	Category 2	Category 1	Scheduled for inspection or being rescheduled due to no access
22	17	5	0	0

4.23 In terms of the cases scheduled for inspection these include instances where the tenant has requested a specific date out with the 48-hour period.

Medical Adaptations

4.24 Time to complete medical adaptations has further improved in the year, with the average days to complete year to date at 24.38 compared to 35.01 for the same quarter last year. We have completed 187 adaptations, an increase from 158 in the first quarter last year, and currently have 28 households waiting, a reduction on 32 at year end 2022/23.

Table 9

Medical Adaptations (Charter)	Current Households Waiting	Number Completed YTD	Average Days to Complete YTD	Target
WHS	28	187	24.38	25 ■

Gas Safety

4.25 We continue to be 100% compliant position for gas safety, with no expired gas certificates.

 **Changing Lives and Communities**

Peaceful Neighbourhoods

4.26 The Group strategic measure is that by 2026 over 70% of our customers live in neighbourhoods categorised as peaceful.

- 4.27 Peaceful communities are defined as communities where customer reported incidents of antisocial behaviour to Police Scotland are reducing and social deprivation indicators (SIMD) in the associated data zone are improving. The most effective way to achieve this target is by reducing the incidence of customer reported antisocial behaviour to Police Scotland.
- 4.28 As at the end of June, 70% of our communities are categorised as ‘Peaceful’, meeting the target for this year.

Accidental Dwelling Fires

- 4.29 In 2022/23, we had 19 accidental dwelling fires. This year we have had one accidental dwelling fire in quarter one, which is less than the same period last year (four).

Table 10

Number of recorded accidental dwelling fires	2023/24 YTD	2022/23
WHS	1	19

- 4.30 To support the reduction in accidental dwelling fires, there is an additional Strategy Measure to ensure 100% of applicable properties have a current fire risk assessment in place. This continues to be achieved.

Table 11

Fire Risk Assessments	2023/24 YTD	Target
The percentage of relevant premises - HMOs that have a current fire risk assessment in place	100%	100%

Reducing Homelessness

- 4.31 The Group continues to be a key contributor to providing homes for homeless households across the sector. We have made 101 lets to homeless applicants in the first quarter of this year.

Table 12

RSL	2023/24 Number of lets to homeless applicants (ARC) - YTD	2022/23 Number of lets to homeless applicants (ARC) – full year
WHS	101	409

Developing our Shared Capability

Sickness Absence

- 4.32 We are currently better than the 3% sickness target at 2.79% year to date.

Table 13

Sickness Rate	Target	2023/24 YTD	2022/23
WHS	3%	2.79%	2.19%

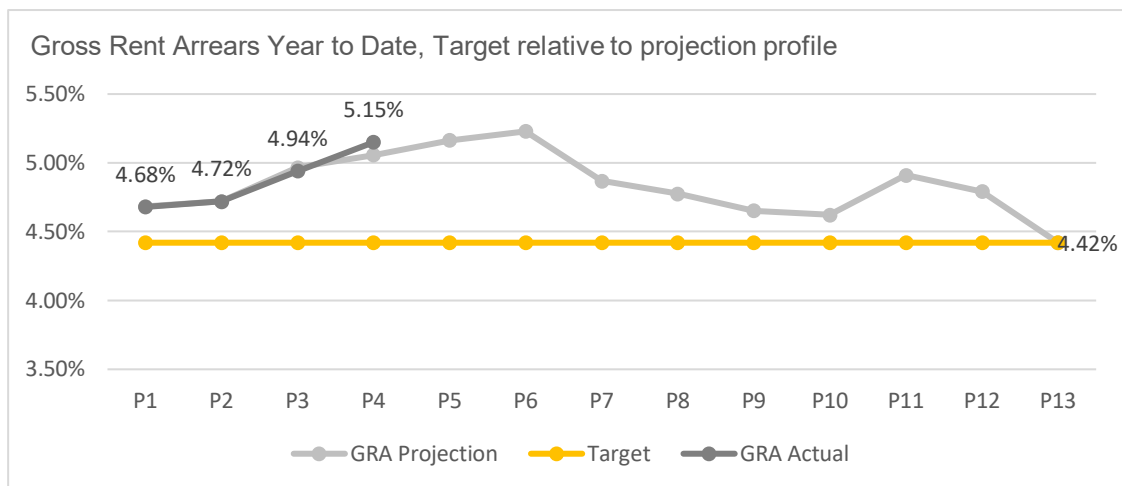

- 4.33 The top two reasons for absence for us in June were Stress and Anxiety (56%) and Accident/Injury – not work related (20%). Of those reporting stress/ anxiety, 59% was due to Stress (Work related), 27% Stress (Non-Work related) and 14% Anxiety (Non-work related).
- 4.34 Support for staff experiencing Stress/Anxiety is available via a number of Academy e-learning modules (Resilience, Mental Health) and face to face seminars (Vicarious trauma, Suicide Prevention) with Mindfulness, Mind Matter and “Using CBT for Stress Management” workshops available via the Employee Wellbeing team.
- 4.35 The Employee Relations team are continuing with the delivery of “HR Essentials” workshop for new, existing, and newly promoted managers. This covers Sickness management, Investigations, Grievance and Disciplinary processes and are designed to support managers dealing with matters such as attendance.

Enabling our Ambitions

Gross Rent Arrears

Chart 1

- 4.36 Our gross rent arrears (GRA) ended 2022/23 at 4.62%, better than the 5.02% target set for last year. In 2023/24 we have further stretched this target to 4.42%, supporting our strategic aim to reduce gross rent arrears to 3.64% by 2026.

- 4.37 Our current GRA levels are at 5.15%. This increase is in part linked to technical arrears when direct debits from customers are received monthly against our 4 weekly rent debits. Chart 1 shows the impact this technical cycle has on the arrears tracking. However, we are slightly above where we had hoped to be at the end of the first quarter and arrears management remains a priority. We continue to focus on maximising income with a targeted approach to support customers in arrears and we also work closely with the joint prevention working group with DGC Homeless and Welfare Benefit Team.
- 4.38 We compare favourably to peer group averages for GRA, with the Scottish Housing Network (SHN) publishing interim member ARC 2022/23 results at 9.59% for Local Authorities and 7.29% for all SHN members. Full ARC results will be published by the Regulator on 31 August 2023.

Average Days to Re-Let (Charter)

- 4.39 Our average re-letting time in 2022/23 was 12.31 days. Letting time this year to date to Q1 has further improved to 11.67 days and remains significantly better than our 16-day target. Improved letting times has a positive impact on lost rent.

Table 14

Average days to re-let (Charter)	2023/24 YTD	2023/24 Target	2022/23 Results
WHG	11.67	16	12.31

Summary of Strategic Project Delivery

- 4.40 A full update on progress with strategic projects is attached at Appendix 2. The following table summarises the current status of projects.

Table 15

Complete	On track	Slippage	Overdue
0	5	3	0

- 4.41 No projects completed during quarter 1.
- 4.42 No projects have proposed milestone updates this quarter.
- 4.43 The following projects are currently slipping:
- **Group wide implementation of WHS Book it, Track it, Rate it** - Full implementation in the West and WHE pilot has commenced, however, the WHS pilot is delayed due to a Civica network change blockage. Progress has been made during July and launch of the pilot is anticipated in August;
 - **My Voice – real time customer feedback reporting** – While the CFC pilot for My Voice has been concluded, work continues on finalising the operational framework. The team are currently working on structuring the reporting approach, identifying the key audiences, and defining the

appropriate sharing frequency. We do not foresee any issues meeting commitments to on-board key service pillars by November;

- **Interest cover covenant revision** - All WFL1 lenders have been requested to make the change, however, slippage has been experienced with the negotiating phase.

5 Customer engagement

- 5.1 Several strategic projects facilitate opportunity for customer engagement, as do new customer feedback channels such as MyVoice and Book It, Track It, Rate It. This will directly impact the way we deliver services, the way they can be drawn down by customers and how customers can share their views on these services.

6 Environmental and sustainability implications

- 6.1 One of our strategic projects for 2023/24 focuses on implementation of the Group sustainability framework. This includes a refined sustainability performance framework and delivery plan which is overseen by the Wheatley Solutions Board.

7 Digital transformation alignment

- 7.1 Our strategy is underpinned by digital transformation. The strategic projects for 2023/24 have been developed and prioritised with I.T., digital and data interdependencies a key factor.

8 Financial and value for money implications

- 8.1 The measures, targets and projects included in this report were agreed as part of the PMF and Delivery Plan for 2023/24. They focus on the most strategically important areas, making sure that financial and other resources are aligned with these priorities. They can be summarised under three broad areas:
- Customer satisfaction, feedback and insight – reinforced as at the heart of our strategy and performance framework;
 - Repairs – reaffirmed as customers’ top priority;
 - Development, regeneration and sustainable neighbourhoods – a continued focus on regenerating and building new and sustainable communities.
- 8.2 There are no direct financial implications arising from this report. Any financial requirements related to actions and projects within the report are subject to separate reporting and agreement.

9 Legal, regulatory and charitable implications

- 9.1 The Scottish Housing Regulator requires an Annual Return on the Charter from each RSL. Key indicators within this return are also included in quarterly performance reporting. RSL Subsidiary Boards approve the returns, and the figures are included in the year-end performance report to the Board.
- 9.2 RSLs are also required to involve tenants in the scrutiny of performance, which the Group does through its Tenant Scrutiny Panel, and to report to tenants on performance by October each year.

10 Risk appetite and assessment

- 10.1 This report covers performance across each of our strategic themes and as such there is no single agreed risk appetite. Having a strong performance management culture will in particular support our progression from excellence to outstanding for which we have an open risk appetite in relation to operational delivery with cautious appetite in relation to compliance with law and regulation.

11 Equalities implications

- 11.1 Project monitoring and evaluations consider equalities information and Equalities Impact Assessments are undertaken at the outset of new programmes to ensure compliance with equality legislation, where applicable.
- 11.2 Our equality, diversity and inclusion policy – revised in 2022/23 – provides a stronger basis on which we can advance our ambitions. The expansion of our Customer Voices, Scrutiny Panel and collation of monitoring information support co-creation and influence which is based on a more diverse range of perspectives.

12 Key issues and conclusions

- 12.1 Our new apex performance measure for the CFC is now in place and has provided a baseline CSAT score of 4.4 (out of 5) at the end of quarter 1. This is considered a strong baseline, especially during a quarter when the CFC experienced challenges, including a significant telephone outage. The CFC continue to focus on improvements to resource planning, helping to ensure call handlers are available during peak periods of demand. Actions such as this will support progress towards the CSAT target of 4.5.
- 12.2 While we still compare favourably to available comparators, our current GRA levels are at 5.15%. We continue with a targeted approach to support customers in arrears and collaboration through the joint prevention working group with DGC Homeless and Welfare Benefit Team.
- 12.3 We continue to have strong performance in several key areas; days to let, lets to homeless, tenancy sustainment, emergency repairs timescales, adaptation completion timescales and sickness absence. Non-emergency timescales are in focus.
- 12.4 Good progress has been made with several strategic projects during quarter 1.

13 Recommendations

- 13.1 The Board is asked to note the contents of this report.

LIST OF APPENDICES:

Appendix 1 - Strategic Results Dashboard
Appendix 2 - Strategic Projects Dashboard

Appendix 1 - WHS Board - Delivery Plan 22/23 - Strategic Measures – Q1

1. Delivering Exceptional Customer Experience

Measure	2022/23	YTD 2023/24		
	Value	Value	Target	Status
WHS – CSAT Score (customer satisfaction)	New	4.4	4.5	
Group - % of first contact resolution at CFC	88.99%	85.79%	90%	
Group - Call abandonment rate	4.72%	5.87%	5%	
WHS - Call abandonment rate	7.70%	7.27%	5%	
Group - Percentage calls passed to housing/commercial officers	6.25%	5.14%	10%	
Group - % calls answered <30 seconds (Grade of Service)	76.79%	67.5%	Contextual	
WHS - % calls answered <30 seconds (Grade of Service)	75.43%	65.57%	Contextual	
Group - Average waiting time (seconds)	57.64	64.91	Contextual	
WHS - Average waiting time (seconds)	97.50	84	Contextual	
% new tenancies sustained for more than a year - overall	86.83%	86.82%	88%	

2. Making the Most of Our Homes and Assets

Measure	2022/23	YTD 2023/24		
	Value	Value	Target	Status
Reduce the volume of emergency repairs by 10% by 2025/26 (target -3.34% for 2023/24)	Apr to June 22/23 – 3,757	3,750	-4.98%	
Reduce the volume of emergency repairs to less than 30% of overall reactive repairs	43.89%	38.84%	35%	
Average time taken to complete emergency repairs (hours) – make safe	2.91	2.55	3	
Average time taken to complete non-emergency repairs (working days)	7.02	7.01	7.0	
% reactive repairs completed right first time	91.09%	93.76%	90%	
Number of gas safety checks not met	0	0	0	
% of tenants who have had repairs or maintenance carried out in last 12 months satisfied with the R&M service	83.15%	87.04%	90%	
Average time to complete approved applications for medical adaptations (calendar days)	32.87	24.38	25	
% Planned repair spending	41.30%	23.2%	60%	
% Reactive repair spending	58.70%	76.8%	40%	
New build completions - Social Housing	37	0	0	
Number of HSE or LA environmental team interventions	1	0	0

Report

To: Wheatley Homes South Limited Board

By: Lyndsay Brown, Director of Financial Reporting

Approved by: Pauline Turnock, Group Director of Finance

Subject: 2022/23 Financial Statements

Date of Meeting: 16 August 2023

1. Purpose

1.1 The purpose of this report is to provide the WHS Board with an overview of the 2022/23 financial statements.

2. Authorising and strategic context

2.1 Under the terms of the Intra-Group Agreement between Wheatley Homes South and the Wheatley Group and this Board's Terms of Reference, the WH South Board is responsible for the on-going monitoring of performance against agreed targets. This includes the on-going performance of its finances and the approval of the statutory financial statements.

3. Background

Financial performance to 31 March 2023

3.1 The financial statements are now complete and have been audited. The financial results for WHS are summarised below. The financial results reflect the requirements of the 2014 Statement of Recommended Practice ("SORP 2014") for Social Housing Providers.

	Year ended 31 March 2023 £'000	Year ended 31 March 2022 £'000
Turnover	55,881	54,909
Operating Expenditure	(40,913)	(38,659)
Other gains and losses	(795)	4,463
Operating Surplus	14,173	20,713
Finance income	22	78
Finance costs	(5,307)	(6,095)
Office property – valuation	(44)	(186)
Surplus for the year	8,844	14,510
Property revaluation – social housing properties	(7,012)	(34,511)
Actuarial gain in respect of pension schemes	-	1,466

Total comprehensive result for the year	1,832	(18,535)
--	--------------	-----------------

3.2 The finance reports submitted to the Board during the year formed the basis of these financial statements and were updated to include a number of year end statutory adjustments.

4. Discussion

4.1 Adjustments from 31 March 2023 management accounts

The adjustments made between the WHS period 12 management accounts and the final audited accounts are summarised below:

	Income & Expenditure £m	Net assets £m
P12 Management accounts	8.1	265.9
Revaluation of social housing properties	(7.0)	(7.0)
Revaluation of investment properties	(0.8)	(0.8)
Depreciation	1.2	1.2
Other	0.3	0.4
Statutory financial statements	1.8	259.7

4.2 Revaluation of Properties: Housing, investment and office properties have been revalued at the year-end by Jones Lang Lasalle, the Group's valuers. The valuation of social housing stock is carried out on an Existing Use for Social Housing ("EUV-SH") basis. The EUV-SH valuation is assessed by modelling the net cashflows generated from properties using assumptions made by JLL on cost inflation and other costs to manage the properties. More general assumptions are applied by JLL on investment requirements over the stock in the longer term. Having homes which are well maintained and remain in good condition supports future letting and maintains future cashflows from rental income. However, this approach means that the valuation movement does not always reflect the scale of investment in existing homes in any one year.

For 2022/23, the comparison of the net book value of the social housing properties to the EUV-SH valuation results in a downward valuation of £7.0m. The completion of the 37 new build properties during the year is a key driver of the reduction in valuation. Social housing properties are initially recognised on the balance sheet at cost of construction, then are written down to an existing use for social housing valuation on completion. The write-down is, however, offset by the grant received to subsidise their construction, which is also recognised through the income statement. The valuation has also been impacted by the decision to remove some properties from the letting pool following a decision to reclassify as they await demolition. Properties identified for demolition are held at nil value.

The valuation also reports a decrease of £0.8m for mid-market rent (investment) properties and a small decrease of £44k for office properties.

- 4.3 Depreciation and other adjustments: These adjustments are for other items finalised after the preparation of the management accounts such as a review of the accuracy of accruals made following the receipt of the invoices post year end and update of the depreciation charge for component accounting.

Audit summary

- 4.4 The external auditors, KPMG, have completed their audit of the financial statements and have issued an unqualified audit opinion. Through their audit work no material adjustments were identified. A number of small number adjustments relating to the update of the year end property valuation have been reflected in the financial statements.
- 4.5 As a standard part of their audit process, and in line with previous years, KPMG require the Board of each organisation in the Wheatley Group to sign a “letter of representation” in which the Board confirms certain matters in terms of disclosure and record-keeping. As in previous years, a letter from the Chief Executive has been provided to each Board to provide comfort that the officers have complied with the matters stated in this letter. Both these documents are provided along with this paper (Appendix 2 and 3 respectively).
- 4.6 The Board are asked to confirm in the letter of representation that the financial statements are prepared on a going concern basis. The assessment that the Company continues in business is based on the preparation and approval of the Company’s 30 year business plan which includes cashflow forecasts, the certainty of revenue streams from rental income and the assessment of the availability of funding.
- 4.7 The accounts will be signed following the approval of the Wheatley Group accounts at the Group Board meeting on 30 August 2023. A copy of KPMG’s audit highlights report will be uploaded to Admincontrol.

5. Customer Engagement

- 5.1 This report relates to our financial reporting and therefore there are no direct customer implications arising from this report.

6. Environmental and sustainability implications

- 6.1 There are no environmental or sustainability implications arising from this report.

7. Digital transformation alignment

- 7.1 There are no digital transformation alignment implications arising from this report.

8. Financial and value for money implications

- 8.1 The business plan will be updated to reflect the 2022/23 statutory accounts.

9. Legal, regulatory and charitable implications

9.1 There are no direct legal, regulatory and charitable implications arising from this report.

10. Risk appetite and assessment

10.1 Our agreed risk appetite for governance is “cautious”. This level of risk tolerance is defined as “preference for safe delivery options that have a low degree of inherent risk and have only limited potential for reward”.

11. Equalities impact

11.1 There are no equalities implications arising from this report.

12. Key issues and conclusions

12.1 This paper presents the audited financial statements for 2022/23.

13. Recommendations

13.1 The Board is asked to:

- 1) Approve the 2022/23 financial statements
- 2) Confirm the preparation of the financial statements using the going concern basis
- 3) Delegate authority to the Chair and Group Director of Finance to approve any non-material changes to the accounts
- 4) Approve the letter of representation from the auditors and note the related letter of comfort from the Chief Executive.

Report

To: Wheatley Homes South Board

By: Ranald Brown, Director of Assurance

Subject: Annual Internal Audit Report and Opinion

Date of Meeting: 16 August 2023

1. Purpose

1.1. This report provides the Wheatley Homes South Board (the Board) with an update for noting of the Internal Audit Annual Report and Opinion 2022/23, previously reported to the May 2023 Group Audit Committee.

2. Authorising and strategic context

2.1. Under its Terms of Reference, the Group Audit Committee is responsible for monitoring the Group's assurance activities, including results as presented in the internal audit annual report and opinion. The 2022/23 Internal Audit Annual Report and Opinion was approved by the Group Audit Committee on 3 May 2023.

2.2. Under our Terms of Reference, our Board is responsible for managing and monitoring its compliance arrangements and operational performance. The activities undertaken by the Assurance Team provide the Board with independent assurance to support the Board in this role.

3. Background

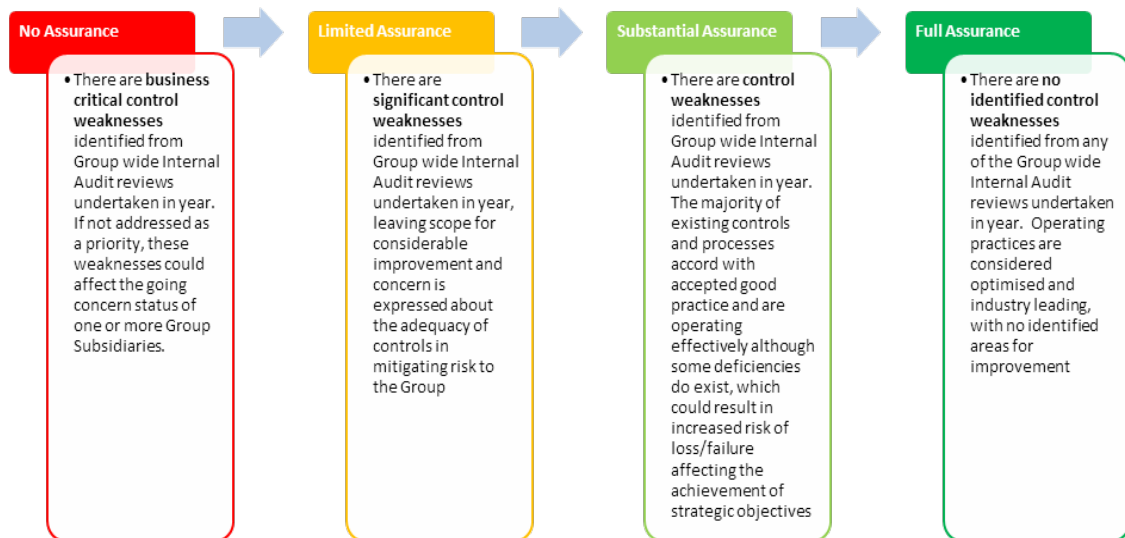

3.1. The Group's Internal Audit team operates in accordance with the Chartered Institute of Internal Auditors' International Professional Practices Framework ("IPPF"), which includes the International Standards for the Professional Practice of Internal Auditing ("the Standards").

3.2. The Group's Internal Audit methodology was assessed against these standards during 2022/23, during an External Quality Assessment overseen by the Group Audit Committee. The approach was found to be "Generally Conformant", which is the highest level of conformance available. Further detail is included within Appendix 1.

3.3. In line with the requirements of the Standards, Internal Audit provides the Board with an Annual Report and Opinion, which summarises the results of the Internal Audit team's work during the financial year and provides an opinion on the Group's internal control, governance, and risk management framework.

4. Discussion

- 4.1. A copy of the Annual Report and Opinion has been included at **Appendix 1** for the Board's information. The table below shows the different types of Internal Audit Opinion which may be given:

- 4.2. Following completion of our approved Internal Audit Plan, we can confirm that sufficient work has been undertaken to enable us to provide an opinion on the adequacy and effectiveness of the internal control environment in operation during 2022/23. In giving this opinion, it should be noted that assurance can never be absolute.
- 4.3. Section 3 of the Annual Report at Appendix 1 outlines the Internal Audit work performed on a Group-wide basis, along with subsidiary-specific elements.
- 4.4. During the delivery of our Internal Audit plan, we identified no critical weaknesses in the governance, risk management, or internal control arrangements which would put the achievement of Group objectives at risk except for weaknesses in City Building Glasgow (CBG) processes and controls in relation to governance and compliance matters. The status of all audit actions will continue to be reported regularly to the Board and Group Audit Committee.

Internal Audit Opinion 2022/23

*Based on our Group-wide work undertaken in 2022/23 a **substantial level of assurance** can be given that there is a sound system of internal control, designed to support achievement of relevant organisational objectives, except for weaknesses in City Building Glasgow processes and controls in relation to governance and compliance matters. The CBG Partnership Oversight Board has been established by the Wheatley Group and Glasgow City Council Chief Executives to review these areas.*

Management has agreed to the improvements to the Group wide control environment arising from our annual work and the progress of implementing these additional controls will be reported to the Group Audit Committee.

5. Customer Engagement

- 5.1. There are no customer engagement implications arising directly from this report although action owners may engage with customers to inform decision-making arising in the course of completing assigned actions.

6. Environmental and sustainability implications

- 6.1. There are no environmental or sustainability implications arising directly from this report.

7. Digital transformation alignment

- 7.1. There are no digital transformation alignment implications arising directly from this report.

8. Financial and value for money implications

- 8.1. There are no financial or value for money implications arising directly from this report.

9. Legal, regulatory and charitable implications

- 9.1. There are no legal, regulatory or charitable implications arising directly from this report.

10. Risk Appetite and assessment

- 10.1. This report summarises the internal audit work performed during 2022/23. The nature of the risks arising from each piece of work varies depending on the review and the agreed management actions are designed to help management to mitigate the identified risks.
- 10.2. Where management considers the risks identified through an internal audit review are sufficiently material to be included in the Group's risk profile, the risk is aligned to a Strategic Outcome and a risk appetite category assigned. This allows management to confirm whether the risk is being managed within risk appetite or if further improvement action is required.

11. Equalities implications

- 11.1. This report does not require an equalities impact assessment.

12. Key issues and conclusions

- 12.1. The Internal Audit team has completed its planned work for 2022/23 and the Director of Assurance has issued his annual opinion, as outlined at paragraph 4.3.

13. Recommendations

- 13.1. The Board is asked to note the contents of this report, including the Annual Internal Audit opinion detailed in Section 4.

LIST OF APPENDICES:

Appendix 1 – Internal Audit Annual Report and Opinion 2022/23

Internal Audit Annual Report and Opinion 2022/23

1. Introduction

The purpose of this report is to provide our view on the adequacy and effectiveness of the Wheatley Group's ("the Group") system of governance, risk management and internal control, as assessed through delivery of our rolling Internal Audit Plan during 2022/23.

The Internal Audit Plan is reviewed and approved by the Group Audit Committee ("the Committee") each quarter and progress against this plan has been reported to the Committee throughout the financial year.

Our detailed findings from specific reviews have been reported to Management during the year, with a summary of these findings reported to the Committee at each of its 2022/23 meetings. Summary findings have also been reported to Subsidiary Boards and the Group Board where appropriate.

This Annual Report summarises the Internal Audit activity and therefore does not include all matters which came to our attention during the year. Such matters have been included within our detailed reports to Management and the Group Audit Committee during the year.

"Internal Audit is an independent, objective assurance and consulting activity designed to add value and improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes."

Section 3 – Definition of Auditing; Chartered Institute of Internal Auditors' International Professional Practices Framework

Group Assurance Mission Statement

To enhance and protect the Wheatley Group by providing independent, risk based and objective, assurance, advice and insight

2. Annual Internal Audit Opinion

Scope

In line with the International Standards for the Professional Practice of Internal Auditing (“the Standards”), Internal Audit provides the Group Board, Audit Committee and Subsidiary Boards with an Annual Internal Audit Opinion, as a result of the work completed during 2022/23.

Our opinion is subject to the inherent limitations of Internal Audit (covering both the control environment and the assurance over controls) as set out in Appendix 1 (Limitations and Responsibilities).

In arriving at our Annual Internal Audit Opinion, we have taken the following matters into account:

- the results of all Internal Audit work undertaken (including any upheld instances of fraud or whistleblowing) during the year ended 31 March 2023;
- in accordance with the Wheatley Group City Building Glasgow Assurance approach, we have placed reliance on the internal audit work done by the Glasgow City Council’s Chief Internal Auditor in relation to City Building Glasgow;
- the effects of any material changes in the Group’s objectives, activities or regulatory environment; and
- whether there have been any resource constraints imposed upon us which may have impinged on our ability to meet the Group’s Internal Audit needs.

Basis of Opinion

Sufficient work has been undertaken to enable us to provide an opinion on the adequacy and effectiveness of the internal control environment in operation during 2022/23. In giving this opinion, it should be noted that assurance can never be absolute.

During the delivery of our Internal Audit plan, we identified no critical weaknesses in the governance, risk management, or internal control arrangements which would put the achievement of Group objectives at risk *except for weaknesses in City Building Glasgow processes and controls in relation to governance and compliance matters. The CBG Partnership Oversight Board has been established by the Wheatley Group and Glasgow City Council Chief Executives to review these areas.* As reported to the Group Audit Committee.

Internal Audit Opinion 2022/23

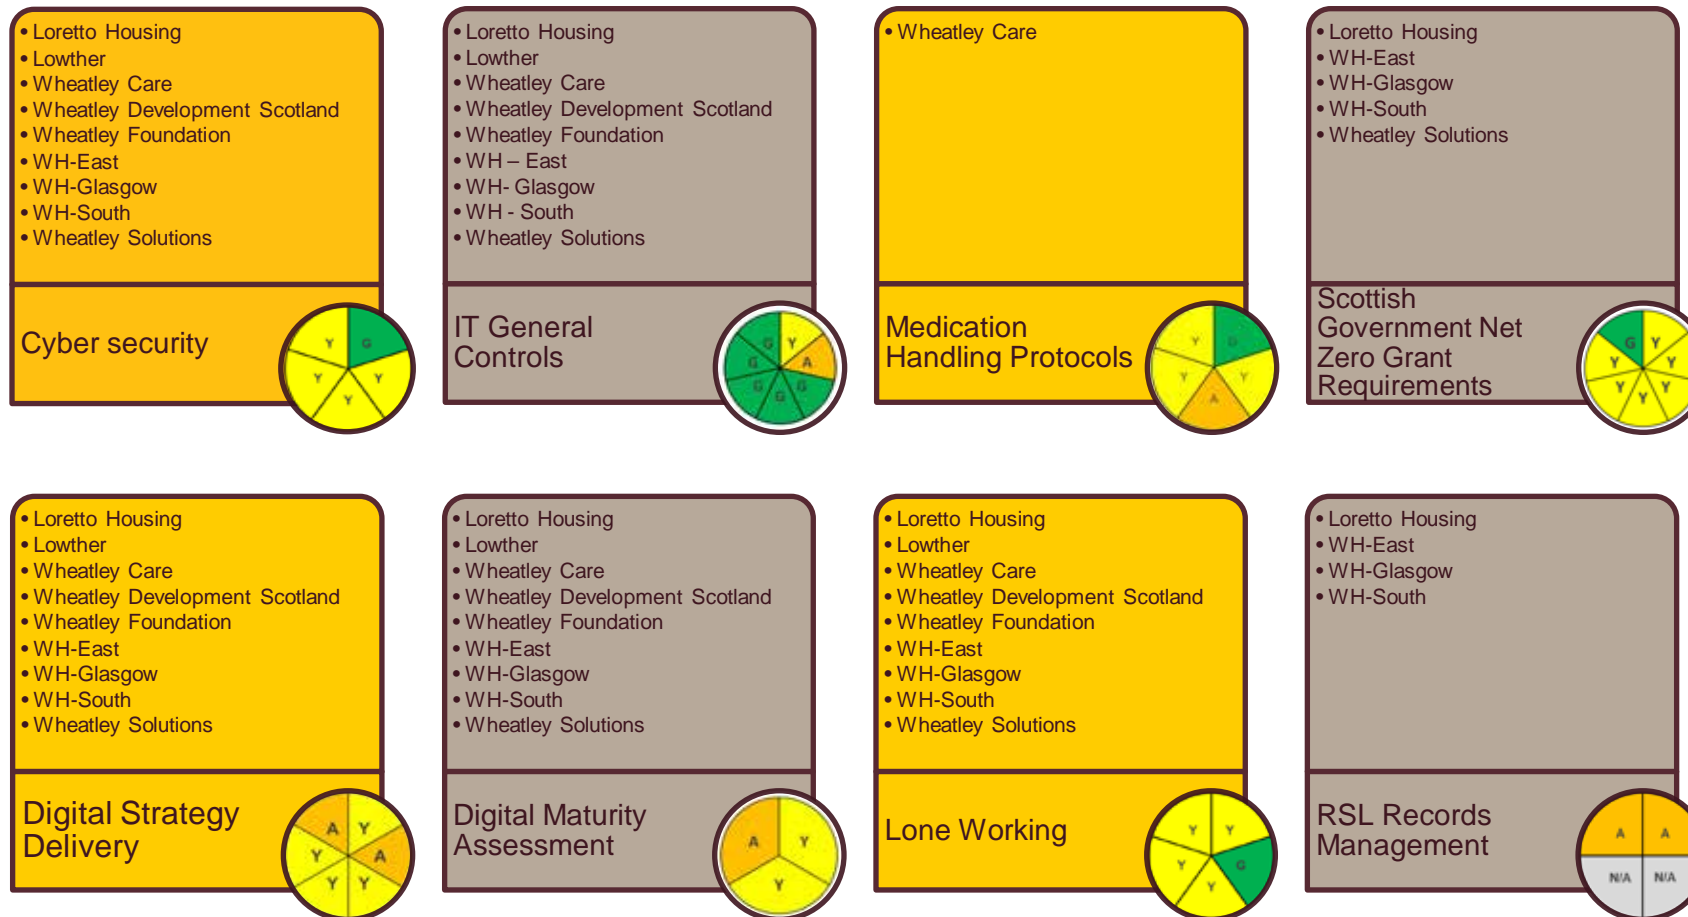

*Based on our Group-wide work undertaken in 2022/23 a **substantial level of assurance*** can be given that there is a sound system of internal control, designed to support achievement of relevant organisational objectives, except for weaknesses in City Building Glasgow processes and controls in relation to governance and compliance matters. The CBG Partnership Oversight Board has been established by the Wheatley Group and Glasgow City Council Chief Executives to review these areas.*

Management has agreed to the improvements to the Group wide control environment arising from our annual work and the progress of implementing these additional controls will be reported to the Group Audit Committee.

* See Appendix 2 for definition of levels of assurance.

3. Summary of Work Performed

This section summarises the results of Internal Audit advisory reviews completed during 2022/23. Each of these reviews included an assessment of the extent to which the control objectives set out in the Terms of Reference were achieved*, as reflected in the charts below.

3. Summary of Work Performed

The Internal Audit team has completed the following advisory and consultancy reviews, which did not include an assessment of the achievement of control objectives, due to the nature of the work performed.

- Loretto Housing
- Lowther
- Wheatley Foundation
- WH-East
- WH-Glasgow
- WH-South
- Wheatley Solutions

Cost of Living-wraparound services

- Loretto Housing
- Lowther
- Wheatley Care
- Wheatley Development Scotland
- Wheatley Foundation
- WH-East
- WH-Glasgow
- WH-South
- Wheatley Solutions

SHR Assurance Statement

- Lowther

Lowther Follow Up

- Loretto Housing
- Lowther
- WH-East
- WH-Glasgow
- WH-South
- Wheatley Solutions

Repairs Follow Up

- Loretto Housing
- Lowther
- WH-East
- WH-Glasgow
- WH-South
- Wheatley Solutions

Damp and Mould

In addition, the Internal Audit team has developed and embedded routine data analytics in the following areas.

Payroll *Payroll exception reporting*

•Loretto Housing	Lowther	Wheatley Care
•Wheatley Development Scotland	Wheatley Foundation	WH-East
•WH-Glasgow	Wheatley Solutions	WH - South

Accounts Payable *Review of purchase card and faster payment transactions*

•Loretto Housing	Lowther	Wheatley Care
•Wheatley Development Scotland	Wheatley Foundation	WH-East
•WH-Glasgow	Wheatley Solutions	WH - South

“Line 2” support *Development of reporting to support local management assurance checks*

•SSSC Registration checks:	Wheatley Care	
•Here for You Fund checks:	Wheatley Foundation	Wheatley Solutions

Summaries of the findings of all reviews conducted during 2022/23 have previously been reported to the Group Audit Committee and to Subsidiary Boards.

3. Summary of Work Performed

The Internal Audit team has facilitated an exercise to map legislative compliance requirements in different business areas across the Group throughout 2022/23. Within each business area, the team has worked with management to identify legislative requirements and any detective controls in place that would confirm compliance with those requirements.

The Internal Audit team has used a "show me" approach to confirm control descriptions, for example completing one walkthrough / viewing one instance of a report to confirm understanding of control. This work did not assess i) whether the control is adequately designed to mitigate the identified risk or ii) operating effectively. The purpose of this mapping is to help management determine where additional detective controls may be needed, or reflect on the purpose and value of control activity across lower risk areas. The output of each exercise is a "map", as shown below.

	Controls in place to detect a compliance breach	Controls to detect a compliance breach are planned but not yet operating	No controls in place to detect a compliance breach
High consequence from compliance failure	Maintain controls	Consider prioritising implementation of controls	Consider whether additional controls are required
Medium consequence from compliance failure	Maintain controls	Rollout controls as planned	Consider whether additional controls are required
Low consequence from compliance failure	Consider whether controls are required	Consider whether planned controls are required	Consider whether current position is acceptable

The business areas mapped during 2022/23 are:

Work will continue during 2023/24 to map remaining business areas.

3. Follow Up of Management Actions

Internal Audit completes follow up activity to verify that management have implemented actions as agreed in our internal audit reports. The follow up activity is undertaken quarterly, with the results reported to each meeting of the Group Audit Committee.

The information below is a summary of all actions followed up during the course of 2022/23.

Our assessment has included review of each action to determine whether:

- a) The action has been completed during 2022/23;
- b) The action is no longer relevant or has been superseded;
- c) The action is not yet due for completion; or
- d) The action is overdue for completion.

For the 10 overdue actions, we have discussed the current status with management and identified revised timescales for completion of the original actions. In 8 instances, this is due to the actions being incorporated into projects to be delivered as part of the 2022/23 Delivery Plan. In each case, we are satisfied that the action is in progress and we will continue to monitor full implementation of these actions.

Status	Actions
Actions brought forward from 1 April 2022	17
New actions agreed during 2022/23	61
Total Actions followed up during 2022/23	78

The chart below summarises our assessment of the status of the 78 actions followed up during 2022/23.

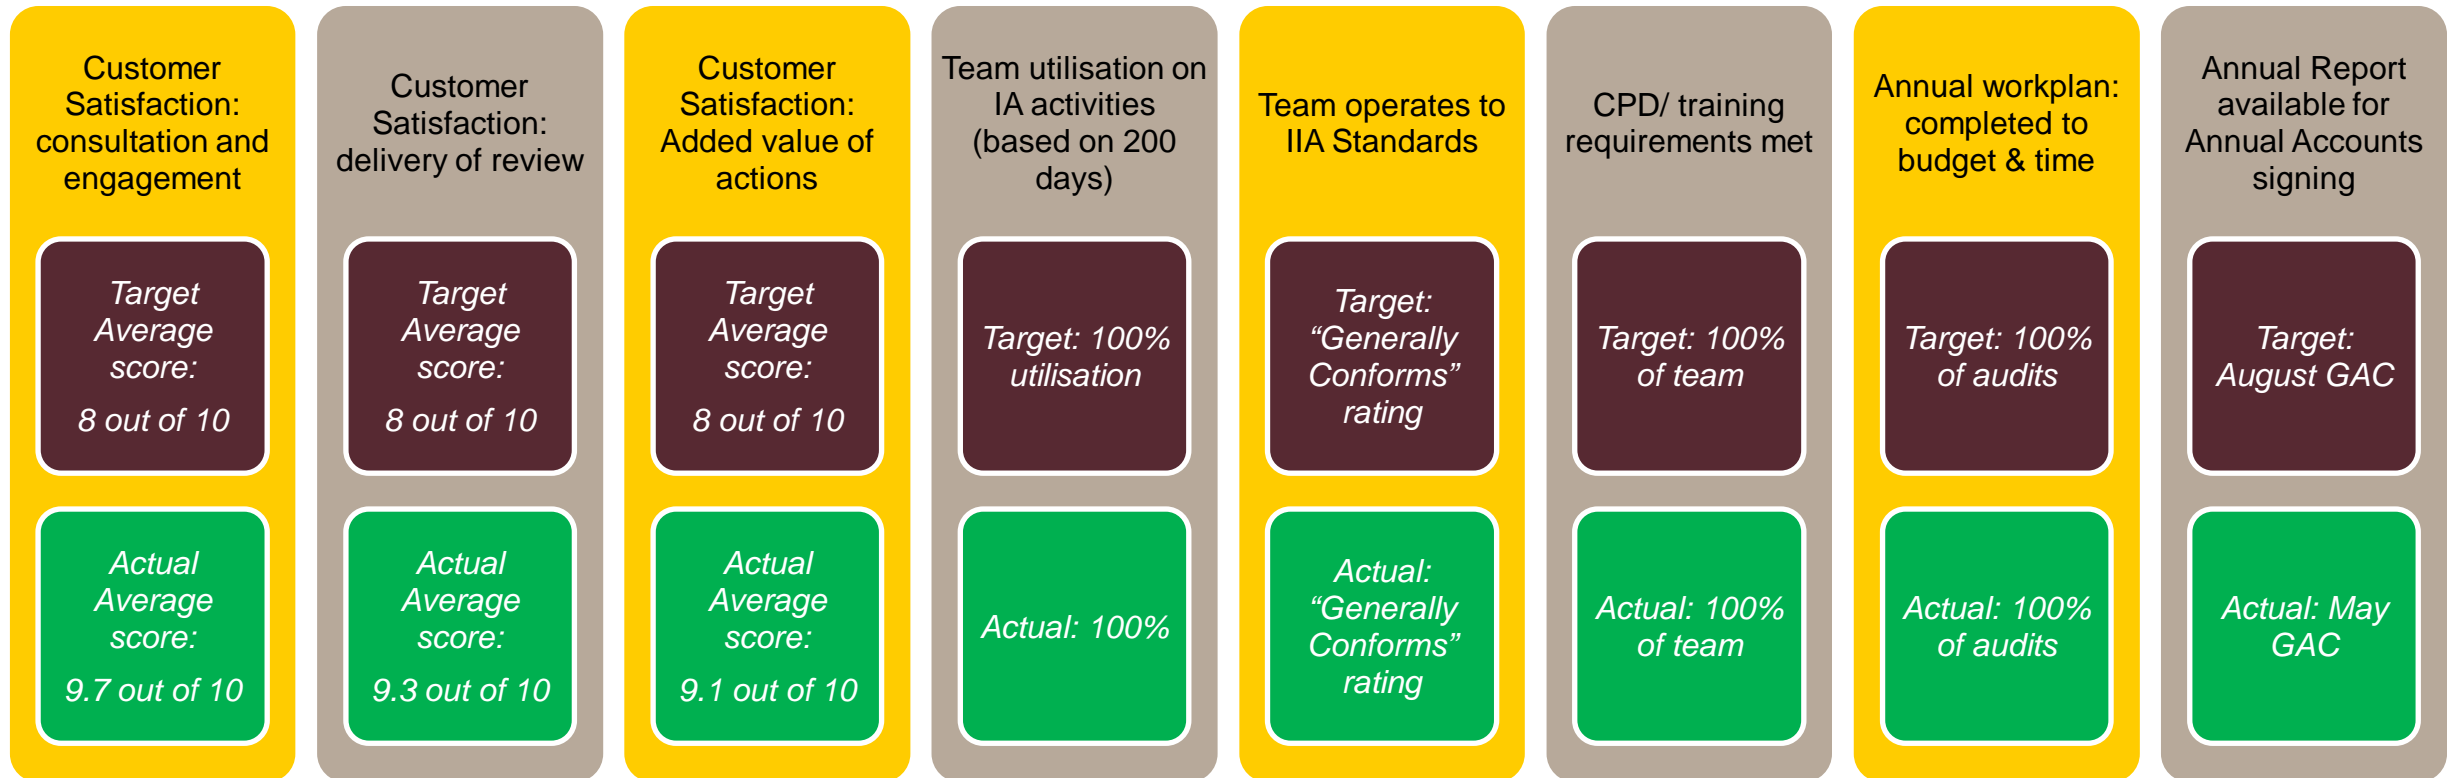

Status of Actions at 31 March 2023

■ Complete ■ No Longer Relevant ■ Open not yet due ■ Overdue

4. Internal Audit Team Performance 2022/23

The Internal Audit team's performance against its agreed KPIs for 2022/23 is set out below:

The customer satisfaction measures are based on feedback forms completed by auditees following each review. Performance against target is allocated a Red, Amber or Green rating, as follows:

4. Internal Audit Team Performance 2022/23

The customer satisfaction measures are based on feedback forms completed by auditees following each review. Positive comments received from our customers included the following:

"I have always found the audit team to be very proactive in advising of the scope and timing of any reviews and also on any follow up actions."

"Communication with the team is always great and they are always happy to receive feedback."

"The team are fantastic, approachable and always more than willing to dedicate time to supporting improvement."

"Engagement with internal audit is always positive and comes from the starting point of business improvement and which as an approach should always lead to improvements in efficiency and/or effectiveness."

The responses also highlighted the following opportunities which have been added to our Internal Audit Improvement Plan.

We will explore opportunities for the team to gain more specialist/technical knowledge (eg shadowing services) in areas which would add demonstrable value to the Group Internal Audit process.

- "There have been occasions when further explanation has been required for team to fully understand the service area, however they are always keen to take on board feedback and upskill where required."

We will offer different methods of agreeing audit actions to best meet management's individual needs. For example, we could facilitate workshops or cross-departmental meetings to share ideas and identify practical solutions.

- "Sometimes recommendations can be made that don't fully consider the operational impact, ownership and accountability of all parties involved."
- "Actions are focused on the solutions being resourced by the RSLs when we don't have any admin staff anymore and our operating model has changed."

5. IA Compliance with Standards

Internal Audit compliance with professional standards

The Internal Audit team employs a risk-based approach to determine the audit needs of the Group at the start of each year, which is reviewed on a rolling three-month basis throughout the year. The team uses a risk-based methodology to plan and conduct our work, and all Internal Audit activity is performed in line with the International Standards for the Professional Practice of Internal Auditing and the Code of Professional Conduct (including Code of Ethics) promoted by the Chartered Institute of Internal Auditors.

Internal Audit independence

Each member of the Internal Audit team is required to confirm their independence annually. The Independence Statements were last collected in September 2022 and the exercise will be repeated in September 2023.

Conflicts of Interest

The Internal Audit team is led by the Director of Assurance, who reports to the Group Director of Finance and meets regularly with the Chair of the Group Audit Committee.

The Director of Assurance has other operational responsibilities. Consequently, the Group Audit Committee assesses the controls in place to maintain the Director's independence on an annual basis.

There have been no conflicts of interest during the year which have impacted on our independence or our ability to report our findings.

6. IA Quality Assurance and Improvement Programme

As part of the IA Team's Quality Assurance and Improvement Programme, we completed our internal quality assurance during 2022/23, comprising:

Ongoing monitoring

- Day-to-day supervision and review of IA team's work
- Key Performance Indicators (KPIs) monitoring and reporting

Annual CPE Completion

- Each IA team member completes training to meet the annual CPE requirement of their professional institute.

Annual self-assessment

- Completed using guidance issued by the CIIA
- Results reported within the Annual Report and Opinion

Annual Self-Assessment

The Internal Audit team updated the quality assessment template produced by the Chartered Institute of Internal Auditors (CIIA) in September 2022, in advance of an External Quality Assessment. The internal self-assessment rated performance as:

Generally Conforms

- The evaluator has concluded that the relevant structures, policies, and procedures of the activity, as well as the processes by which they are applied, comply with the requirements of the individual Standard or element of the Code of Ethics in all material respects.

The results of the External Quality Assessment are set out on the next slide.

6. IA Quality Assurance and Improvement Programme

External Quality Assessment (EQA)

As required by the Group's Internal Audit Charter, the Internal Audit team was subject to an External Quality Assessment during 2022/23. The Group Audit Committee oversaw the appointment of the external assessor, who conducted an independent validation of the team's self-assessment and interviewed a number of the team's stakeholders.

The overall conclusion was:

GENERALLY CONFORMS	THE WHEATLEY HOUSING GROUP INTERNAL AUDIT FUNCTION GENERALLY CONFORMS WITH THE INTERNATIONAL PROFESSIONAL PRACTICES FRAMEWORK
--------------------	---

This is the highest level of conformance with the Standards, reported by the assessor as being **“an excellent result”**.

In total, the assessment reviewed the team's performance against the 64 fundamental principles that make up the Standards.

Summary of IA Conformance

The two areas marked as not applicable relate to: i) disclosure of non-conformance, which has not occurred and ii) arrangements where an external service provides the internal audit function.

The report contained no formal recommendations for improvement but did set out four areas for future consideration to further enhance the function. Actions to address these areas have been reported to the Group Audit Committee, which will monitor their completion.

Limitations Inherent to the Internal Auditor's Work

We have prepared the Internal Audit Annual Report and undertaken the agreed programme of work as set out in the Internal Audit Plan, subject to the limitations outlined below.

Opinion

The Annual Internal Audit Statement is based solely on the work undertaken as part of the agreed Internal Audit Plan. The work addressed the control objectives agreed for each individual assignment as set out in our individual Terms of Reference. The matters raised in this report are only those which came to our attention during our Internal Audit work and are not necessarily a comprehensive statement of all the weaknesses that exist, or of all the improvements that may be required.

There might be weaknesses in the system of internal control that we are not aware of because they did not form part of our programme of work, were excluded from the scope of the individual review, or were not brought to our attention. Our audit plan is based on risk to capture the higher risk areas within the Group. As a consequence, Management and the Group Audit Committee should be aware that our opinion may have differed if our programme of work or scope for individual reviews was extended or other relevant matters were brought to our attention.

Internal Control

Internal control systems, no matter how well designed and operated, are affected by inherent limitations. These include the possibility of poor judgement in decision-making, human error, control processes being deliberately circumvented by employees and others, management overriding controls and the occurrence of unforeseeable circumstances.

Responsibilities of Management and Internal Audit

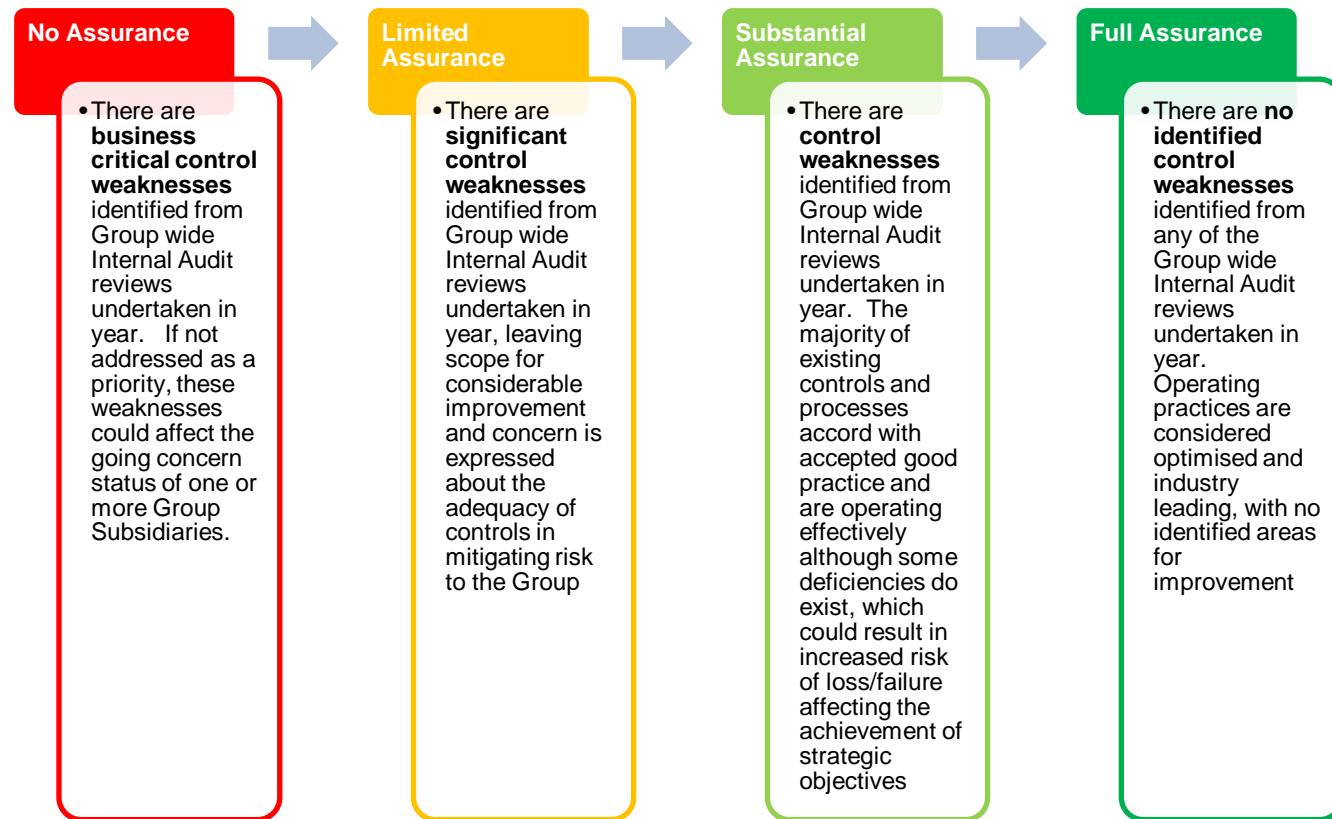

It is Management's responsibility to develop and maintain sound systems of risk management, internal control and governance to ensure the prevention and detection of irregularities and fraud. Internal Audit work should not be seen as a substitute for Management's responsibilities for the design and operation of these systems.

Internal Audit endeavour to plan work so that we have a reasonable expectation of detecting significant control weaknesses and if detected, we shall carry out additional work directed towards the identification of consequent fraud or other irregularities. Internal Audit procedures alone, even when carried out with due professional care, do not guarantee that fraud will be detected, and our examinations as Internal Auditors should not be relied upon to disclose all fraud, defalcations or other irregularities which may exist.

Appendix 2: Assurance Opinion definitions

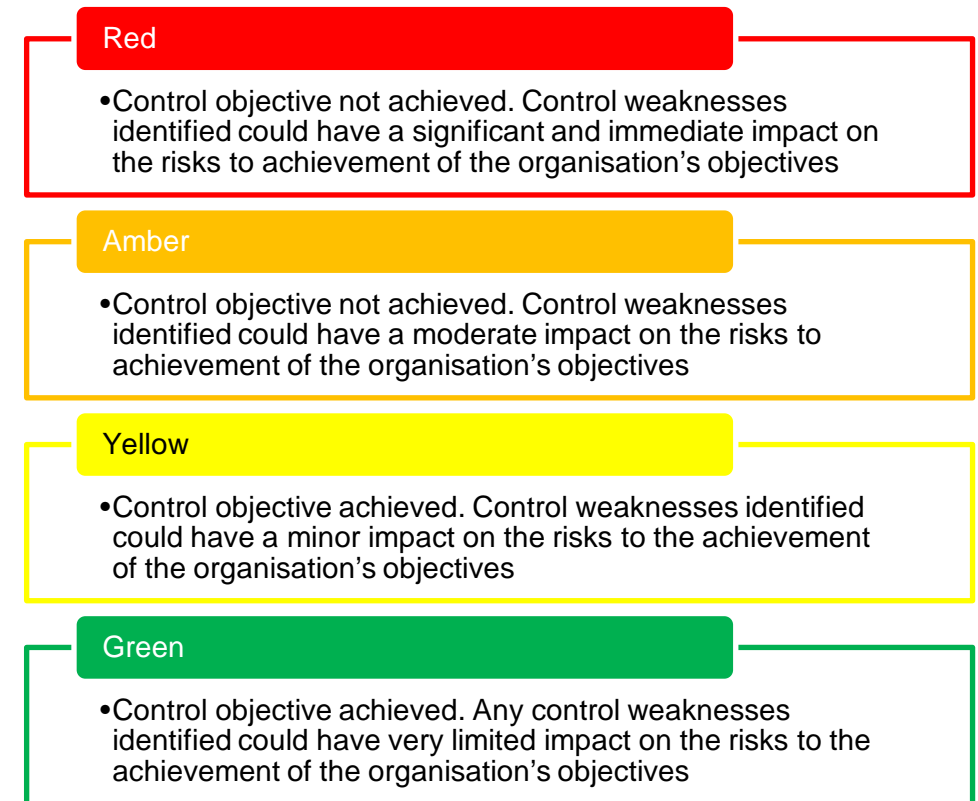

Annual Assurance Opinion Definitions

The table below details the different types of Internal Audit opinion which may be given:

Control Objective Classification

Each control objective is assigned a classification based on an assessment of the impact of individual findings within the report, as follows:

Report

To: Wheatley Homes South Board

By: Stephen Wright, Director of Governance

Approved by: Anthony Allison, Group Director of Governance and Business Solutions

Subject: Governance update

Date of Meeting: 16 August 2023

1. Purpose

- 1.1 To update the Board and, where applicable, seek approval for the following governance related matters which are reported to the Board annually in August:
- Final schedule of meetings for the remainder of the 2023 calendar year, including the Annual General Meeting (“AGM”);
 - Appointments and reappointments
 - Board appraisal; and
 - Use of Chair’s urgent action;

2. Authorising and strategic context

- 2.1. The Board is responsible for calling meetings, including General Meetings and ordinary Board meetings throughout the course of the year.
- 2.2. In relation to Board appraisals, under the Group Standing Orders the Group Remuneration Appointments Appraisals and Governance (RAAG) Committee is responsible for determining the approach each year and agreed to the approach used this year.
- 2.3. The use of the Chair’s Urgent Actions provision is permitted under our Group Standing Orders “on a time sensitive matters reserved to the Board which cannot wait until the next scheduled meeting”.

3. Background

- 3.1 The matters in this report form part of our annual governance reporting, which precedes the AGM each year. It also provides an update on progress with recruitment for vacancies.
- 3.2 Following the last meeting we had to urgently consider a property disposal; this was done in discussion with the Company Secretary and Chair in accordance with the Group Standing Orders.

4. Discussion

Remaining 2023 meetings

- 4.1 It is proposed that we call our AGM for 20 September 2023 at 10am. The meeting and business thereof will be called in line with the requirements of our Articles. This will be followed by the Board meeting at approximately 10.30am. Given the reduced attendance at recent general meetings in recent years and the relatively short nature of the meeting we propose to hold the AGM online. The Board meeting will remain as an in-person meeting. In common with other RSLs in our Group, as we have enhanced the many ways in which our customers can engage with us then this has diminished the role of the AGM as a means for customers to find out about our work.
- 4.2 In addition to our AGM we have two further Board meetings scheduled for this calendar year which would take us to the minimum requirement of 6 scheduled meetings for the calendar year (in addition to the additional meeting that was held in January this year):
- Post AGM on Wednesday 20 September 2023; and
 - Wednesday 22 November 2023 at 10.30am.
- 4.3 We also have our annual Group Governance festive lunch planned for the remainder of the year Wednesday 20 December 2023 at 1pm (Social event - Wheatley House).

Appointments and reappointments

- 4.4 The AGM is the time at which Board appointments are typically made or reviewed and the time when Board members would stand down following the completion of their tenure. Under our Articles, Board members are appointed for three-year terms and can serve up to three terms. One Board member, Michael Greaves-Mackintosh, joined the Board in 2017 and at the time of the AGM will have served two three-year terms. Michael has expressed a willingness to continue on the Board and therefore it is proposed that he is awarded a further three-year term to expire from the conclusion of our AGM in September 2026.
- 4.5 The AGM will mark the last day of Maureen Dowden's appointment as Chair and a Board member. As previously agreed by the Board, Maureen will be succeeded as Chair by Jo Boaden. Jo's appointment has been approved by the Group Remuneration, Appointments, Appraisals and Governance (RAAG) Committee.
- 4.6 We currently have one vacancy that we are currently recruiting for. As agreed with the Board, this is for a Board member with general business and/or property asset experience. We have identified a potential candidate and will provide an update on the recruitment process at the Board meeting. In addition to this, Maureen's retirement will create a further vacancy. Given recent changes on the Board, it is proposed that we update our skills matrix as part of the Board appraisal process and use that as an opportunity to identify the skillset required.

Board appraisal

- 4.7 The Group RAAG committee is expected to approve the appraisal process for this year at its next meeting. The appraisals will likely take place across September and October and, given they will be reported back post AGM, be undertaken by the incoming Chair. As soon as the process is agreed by the RAAG Committee members will receive a briefing and update on the timing.

Urgent action

- 4.8 Under the Group Standing Orders, the Chair can agree an Urgent Action on a time-sensitive matter *'Where it is not feasible or practical to convene an additional meeting or pass a written resolution'*.
- 4.9 On 24 May 2023, approval was sought and received from the Chair to transfer our interest in a property to the current tenant, in settlement of an ongoing court case in respect of a disposition of property. The case concerned a complex court action raised by a tenant in 2018 and which involved criminal activity against us and the tenant concerned. In summary, we acquired a property from two sellers (who were a married couple) in 2011 under a Mortgage to Rent scheme. The sellers then became secure tenants. It later transpired that one of the sellers had fraudulently executed the transaction documents on behalf of their spouse and has since been prosecuted and found guilty in a criminal court.
- 4.10 A court case was raised by the spouse who was the subject of the fraud seeking for the transaction to be treated as void on the basis of the fraud. Given the complex nature of the case then we instructed external solicitors. Having initially sought to defend the case, our external legal advice was that we should settle the case. Having carefully considered our options, including taking legal advice on mitigating and also pursuing our losses, it was recommended that:
- We retain the rent paid to the date of disposal (£42,691)
 - We receive an additional sum of £30,000 for our half share in the property (which is valued at £120,000)
 - We transfer the remaining half share to the tenant concerned.
- 4.11 A briefing was provided to the Chair with an explanation of the above circumstances. The Chair agreed the matter and our legal team has now arranged for this matter to be concluded. The matter became urgent as the pursuer in the case informed us that they were considering reviewing their position in relation to the proposed settlement which could have led to a reduction in the sum we were able to recover.

5. Customer engagement

- 5.1 The content of the report is reserved to the Board and is of an internal focus and as such no customer engagement has been appropriate.

6. Environmental and sustainability implications

- 6.1 There are no environmental or sustainability implications associated with this report.

7. Digital transformation alignment

7.1 There are no links to digital transformation associated with this report.

8. Financial and value for money implications

8.1 There are no finance and value for money implications contained within this report.

9. Legal, regulatory and charitable implications

9.1 The SHR Regulatory Standards of Governance that all RSLs:

formally and actively plans to ensure orderly succession to governing body places to maintain an appropriate and effective composition of governing body members and to ensure sustainability of the governing body.

9.2 The proposals within this report are consistent with us complying with this requirement.

9.3 The urgent action taken by the Chair was consistent with the advice received from our external and internal legal counsel.

10. Risk appetite and assessment

10.1 Our governance arrangements support delivery across each of our strategic themes. Across each of our strategic themes we have a cautious or minimal approach to our legal and regulatory compliance. The matters and recommendations in this report are consistent with this approach.

11. Equalities implications

11.1 There are no direct equalities implications in regard to this report.

12. Key issues and conclusions

12.1 This report covers updates to our Board membership, including the appointment of the next Chair.

12.2 The report also informs the Board of an urgent action taken in relation to a time sensitive matter between Board meeting dates.

13. Recommendations

13.1 The Board is asked to:

- 1) Instruct the Secretary to call the Annual General Meeting for Wednesday 20 September 2023 at 10am to be held online by MS Teams;
- 2) Note the Board appraisal approach following feedback from the RAAG Committee;
- 3) Approve the re-appointment of Michael-Greaves Mackintosh as a Board member for a further 3-year term;
- 4) Note the update on the Board and individual appraisal process; and
- 5) Note the use of the Chair's urgent action to dispose of a property following conclusion of the related court case.

LIST OF APPENDICES:

None

Report

To: Wheatley Homes South Board

By: Lyndsay Brown, Director of Financial Reporting

Approved by: Pauline Turnock, Group Director of Finance

Subject: Finance Report

Date of Meeting: 16 August 2023

1. Purpose

The purpose of this report is to provide the Wheatley Homes South board with:

- An overview of the management accounts for the year to 30 June 2023 and Q1 forecast,
- an update on the review of new build appraisal target return rate and seek agreement this be updated on the new build approval criteria for Wheatley Homes South Limited project approvals by Wheatley Developments Scotland, and
- Seek approval of the proposed new £[redacted] debt facility with [redacted].

2. Authorising and strategic context

- 2.1 Under the terms of the Intra-Group Agreement between Wheatley Homes South and the Wheatley Group and this Board's Terms of Reference, the WH South Board is responsible for the on-going monitoring of performance against agreed targets. This includes the on-going performance of its finances.
- 2.2 The Group Board and the Wheatley Funding No.1 Limited ("WFL1") Board will be asked to approve the proposed [redacted] loan in their meetings on 30 August 2023.

3. Background

Financial performance

3.1 The results for the year to 30 June are summarised below.

	Year to Date (Period 3)		
	Actual £'000	Budget £'000	Variance £'000
Turnover	13,295	12,921	374
Operating expenditure	(10,600)	(10,684)	84
Operating surplus	2,695	2,237	458
<i>Operating margin</i>	<i>20%</i>	<i>17%</i>	<i>3%</i>
Net interest payable	(1,560)	(1,563)	3
Surplus	1,135	674	461
Net Capital Expenditure	4,492	3,828	(664)

4. Discussion

4.1 A statutory surplus of £1,135k is reported for the year to 30 June 2023, £461k favourable to budget.

Key points to note:

- Net Rental income is £93k higher than budget driven by lower than budgeted voids, with a void loss rate of 0.6% vs 1.2% in budget. Rental income is £17k favourable driven by timing of properties cleared for demolition.
- Other Grant Income is £301k favourable than budget due to additional adaptation grant claimed (with higher corresponding spend in investment).
- Operating expenditure is £84k favourable to budget driven by higher repairs costs:
 - Total employee costs (direct and group services) are £67k lower than budget. The savings include vacant positions in the budgeted structure and lower than budgeted overtime.
 - Total running costs (direct and group services) are £26k favourable to budget. Group recharges are £19k favourable to budget due to several departments currently reporting lower costs across Wheatley Solutions.
 - Repair costs are £148k unfavourable to budget. Reactive repairs are £149k unfavourable to budget due to higher cost per job driven by increased material costs. Lower spend was noted in both cyclical and compliance. A repairs improvement plan has been agreed together with mitigating actions to bring repairs spend within the forecast spend.
- The investment income is £4,578k lower than budget due to timing of grant funding claimed for the new build programme (Curries Yard and Springholm).

- Total core investment spend of £3,548k is £572k higher than budget due to higher spend on capitalised voids and grant funded adaptation works. As with repairs and maintenance, a number of mitigating actions and business rules have been put in place to bring Investment spend within the forecast spend.
- New Build expenditure is £4,195k under budget driven by timing of spend on Curries Yard and Springholm.
- Other capital expenditure of £223k is £291k lower than budget. Other capital spend includes work on local touchdown hubs and IT costs.

4.2 Q1 2023/24 Full Year Forecast

	Full year 2023/24		
	Forecast £k	Budget £k	Variance £k
Turnover	63,497	66,876	(3,379)
Operating expenditure	(43,710)	(43,469)	(241)
Operating surplus	19,787	23,407	(3,620)
<i>Operating margin</i>	31%	35%	
Net interest payable	(6,084)	(6,024)	(60)
Surplus	13,703	17,383	(3,680)
Net Capital Expenditure	24,642	25,950	(1,308)

The forecast reflects the results in the year to date as well as expected expenditure for the remaining 9 months of the year. The forecast statutory surplus of £13,703k is £3,680k adverse to budget.

Key points to note:

- Other grant income is £2,860k lower than budget due to deferral of Social Housing Net Zero (SHNZ) project to 2024/25, partly offset by additional adaptation income (with the corresponding increase in investment works). Wheatley Development Scotland gift aid is lower (£449k) linked to the reprofiling of development spend in the year.
- Expenditure includes additional cost to demolish units, £438k. Bad debts are £150k lower than budget with the forecast taking a conservative approach to future performance.
- Investment income is £9,141k lower than budget due to the reprofiling of the development programme and of part of the SHNZ project (detailed below), partly offset by higher adaptation income.

- Investment works are £3,421k lower than budget. This includes reprofiling £3,346k of the £9,975k in year expenditure on the SHNZ funded deep retrofit project because of delays in SPEN (Scottish Power Energy Networks) completing enabling works that are necessary to connect the planned heating improvements to the electricity grid, reprofiling to the core programme of £1,070k, partly offset by increased costs on capitalised voids £500k. Adaptations are £405k higher, however these are fully funded.
- The new build programme has reduced by £7,028k due to the reprofiling of various developments. Johnstonebridge and Lochans have reduced by £2,536k and £2,441k respectively.
- It is our aim to manage the forecast variations to budget on individual lines within the parameters of the overall budget for 2023/24. The Q1 forecast presented to the Board has been prepared on a prudent basis and reports an underlying surplus of £5,938k, £210k favourable compared to the budget.

4.3 Review of New Build Appraisal Target Return Rate

- The new build appraisal target return rate was reviewed in October 2022 in response to the uncertainty caused by the emergency rent legislation announcement and a period of volatility in financial markets in September 2022. At that time, we increased the rates to [redacted]% for social rent and [redacted]% for mid-market rent properties. More detail on this background is available in the November 2022 board paper.
- Inflation has remained stubbornly high inflation and since the last return rate review the market outlook for peak interest rates has risen from 4.50% to and expectation of a peak around 6.00% with rates also remaining higher for a longer period. The Bank of England's most recent increase of 0.50% took rates up to 5.25% in August.
- While the majority ([redacted]%) of the Group's drawn debt is arranged on a fixed rate basis, we have several loans on a floating rate basis, including our Revolving Credit Facilities, and future fixed rate funding will be drawn at higher prevailing rates. As such, we need to increase our minimum appraisal rates for social and mid-market developments to ensure new build activity is not being cross subsidised by existing tenants.
- The Chief Executive approved the following minimum rates in early July 2023, and Group Board will be asked to ratify this decision in their August 2023 meeting. Any new build projects which do not have full board approval (including grant awards in principle) are now subject to these new rates with immediate effect:

Wheatley Subsidiary	Tenure	New Appraisal Rate	Previous Appraisal Rate	Appraisal period
WH-Glasgow Loretto WH-East	Social	[redacted]	[redacted]	[redacted]
	Mid-Market	[redacted]	[redacted]	[redacted]
WH-South	Social	[redacted]	[redacted]	[redacted]
	Mid-Market	[redacted]	[redacted]	[redacted]
Lowther Homes	Mid-Market	[redacted]	[redacted]	[redacted]

- The actual impact will depend on property size, rental income and other scheme specific factors but as an indication, to meet the proposed target IRR of [redacted]% social rent developments will require an additional £[redacted]of grant per unit and for a target of [redacted]% on MMR schemes, an additional £[redacted]per unit.

4.4 **New [redacted] funding**

4.4.1 We most recently arranged a £[redacted]m loan with [redacted] with funds drawn in February 2023 in the name of Wheatley Funding No.1 Limited (“WFL1”), the treasury funding vehicle for the Group RSLs. [redacted] provides financing to the Scottish social housing sector, acting as an intermediary for the Scottish Government’s ‘charitable bond’ programme to fund the construction of affordable homes. Loans are arranged on a fixed rate basis plus margin.

4.4.2. A funding update paper was presented to Group Board in June 2023. This set out the RSL Borrower Group’s requirement to raise additional funding to support the delivery of our new build programme. Allia debt is provided on an unsecured basis with interest payments deferred until maturity, conferring a cashflow benefit during the term of the loan.

4.4.3. Group Board will be asked to approve an additional £[redacted]m to be drawn under the £[redacted]m Master Facility Agreement with [redacted] in their Board Meeting on 30 August 2023. The interest rate and term of the loan will be subject to agreement by Group Board. Current indicative rates are [redacted]%, inclusive of margin, for a 10-year term.

4.4.4 As a Guarantor to the WFL1 facilities, this Board is requested to approve the proposed loan facility. The associated loan documentation is appended to this paper. This includes a copy of the Master Facility Agreement from February 2023, a specimen board minute and officer certificate.

5. **Customer Engagement**

5.1 This report relates to our financial reporting and therefore there are no direct customer implications arising from the Finance Report.

6. **Environmental and sustainability implications**

6.1 There are no environmental or sustainability implications arising from this report.

6.2 The [redacted] loan does not have a direct sustainability link, however, it is a requirement from Scottish Government that the funding is used for the supply of new social rent homes which meet stretching energy efficiency standards.

7. **Digital transformation alignment**

7.1 There are no digital transformation alignment implications arising from the Finance Report.

8. Financial and value for money implications

- 8.1 The statutory surplus for the year to 30 June 2023 is £461k favourable to budget. Delivery of our cost efficiency targets is a key element of continuing to demonstrate value for money. The underlying result for the year to June 2023 is £111k adverse to budget driven by increased responsive repairs and capitalised void spend.
- 8.2 The Q1 forecast shows a statutory surplus of £13,703k, £3,620k adverse to budget driven by deferral of Net Zero grant income to 2024/25 and increased demolition costs. The Q1 forecast reports an underlying surplus of £7,193k, £259k unfavourable to budget.

9. Legal, regulatory and charitable implications

- 9.1 There are no direct legal, regulatory and charitable implications arising from the Finance Report.
- 9.2 We have been advised by Brodies in respect of the [redacted] funding agreement. The [redacted] agreement is unsecured which results in a more efficient legal exercise than is the case where security is required.
- 9.3 The Scottish Housing Regulator is no longer required to provide consent for new debt facilities for RSLs, although they will be updated about our new Allia loan in our regular quarterly meetings.
- 9.4 There are no charitable implications arising from the new [redacted] facility.

10. Risk Appetite and assessment

- 10.1 The Board's agreed risk appetite for business planning and budgeting assumptions is "open". This level of risk tolerance is defined as "prepared to invest for reward and minimise the possibility of financial loss by managing the risks to a tolerable level".
- 10.2 Delivery of financial results within approved budgetary limits is a key element in delivering our strategy and maintaining the confidence of investors.
- 10.3 The Group's risk appetite in respect of development is "open", which is defined as willing to choose the option "*most likely to result in successful delivery while also providing an acceptable level of reward*". The Group's risk appetite in respect of governance is "cautious" which is defined as "*preference for safe delivery options that have a low degree of inherent risk and may only have limited potential for reward*".
- 10.4 Raising funding to support our ambitions is a Strategic Outcome under the Theme of Enabling our Ambitions. Our agreed risk appetite for the operational delivery of raising funding is cautious, preferring safe delivery options that have a low degree of inherent risk. The previous track record of dealing with Allia, the associated pricing and the unsecured nature of the loan meets this risk criteria. The facility will be arranged at the Group treasury vehicle level (WFL1) which means it can be on-lent to any of the Wheatley RSL's, with all parties benefitting from the strong negotiating power of the wider Group for pricing and other terms & conditions.

11. Equalities implications

11.1 There are no equalities implications arising from the Finance Report.

12. Key issues and conclusions

12.1 This paper presents the financial performance position for the year to 30 June 2023.

12.2 This paper presents the financial performance position for the development programme and the management accounts for the company for the period to 30 June 2023. It also includes details of a new loan to be delivered through WFL1 from [redacted]. An update on the review of our target internal rate of return (IRR) to be used for appraising new build projects is also provided.

13. Recommendations

13.1 The Board is requested to:

- 1) Note the management accounts for the year to 30 June 2023 and Q1 forecast at Appendix 1.
- 2) Note the revision to the target return rate for new build social and mid-market rent developments and agree the criteria for Wheatley Development Scotland approving projects on our behalf is updated to reflect this.
- 3) Approve the new £[redacted] facility to fund new affordable homes.

<i>Net operating margin</i>	<i>20%</i>	<i>17%</i>	<i>3%</i>	<i>35%</i>
Interest Receivable and similar income	7	4	3	15
Interest payable & similar charges	(1,567)	(1,567)	(0)	(6,039)
STATUTORY SURPLUS	1,135	674	461	17,383

Key highlights :

Net operating surplus of £2,695k is £458k favourable to budget. Statutory surplus to 30 June is £1,135k, which is £461k favourable to budget. The key driver of the variance is higher than budgeted adaptation grant income.

- Net Rental income is £93k higher than budget driven by lower than budgeted voids, with a void loss rate of 0.6% vs 1.2% in budget. Rental income is £17k favourable due to the timing of properties cleared for demolition.
- Other Grant income is £301k favourable than budget due to additional adaptation grant claimed (with higher corresponding spend in investment).
- Total employee costs (direct and group services) are £67k lower than budget. The savings include vacant positions in the budgeted structure and lower than budgeted overtime.
- ER/VR costs are in line with budget, with two ER/VR leavers in Q1. This cost will yield future revenue savings.
- Total running costs (direct and group services) are £26k favourable to budget. Group recharges are £19k favourable to budget due to several departments currently reporting lower costs across Wheatley Solutions.
- Repair costs are £148k unfavourable to budget. Reactive repairs are £149k unfavourable to budget due to higher cost per job driven by increased material costs. Lower spend was noted in both cyclical and compliance. A repairs improvement plan which includes a number of mitigating actions has been put in place to manage repairs spend within the forecast spend.
- Demolition costs are in line with budget, spend in the month relates to home loss and disturbance costs prior to demolition.

Gross interest payable of £1,567k represents interest due on the loans due to Wheatley Funding No.1 Ltd and external funders.

1b) Capital Investment – Year to 30 June 2023

CAPITAL INVESTMENT	Year to 30 June 2023		
	Actual £'000	Budget £'000	Variance £'000
CORE PROGRAMME			
Grant Income	952	671	281
Core Investment Programme - grant funded	556	556	0
Adpatations - grant funded	396	135	(261)
Total Grant Funded Core Investment	952	691	(261)
Core Investment Programme	843	1,227	384
Voids	1,753	1,058	(695)
Total Core Investment	2,596	2,285	(311)
NET CORE INVESTMENT SPEND	2,596	2,305	(291)
NEW BUILD			
New Build Grant Income Received	2,091	6,950	4,859
New Build Investment	3,763	7,958	4,195
NET NEW BUILD INVESTMENT SPEND	1,672	1,009	(663)
OTHER FIXED ASSET INVESTMENT SPEND	223	514	291
TOTAL NET CAPITAL INVESTMENT SPEND	4,492	3,828	(664)

Key highlights :

Net capital expenditure of £4,492k is £664k higher than budget.

- Net core investment spend of £2,596k is £291k higher than budget due to higher spend on voids.
- Spend includes £952k of funded adaptations and funded energy efficiency works as part of the Social Housing Net Zero project.
- Void improvement works have been brought in house during June 2023, which will provide savings in average spend per job. The full year out-turn is expected to be £3,577k, £501k higher than budget.
- New Build expenditure is £4,195k under budget driven by timing of spend at Curries Yard and Springholm. The investment team still expect to meet full year budget by end of the year. The new build grant income is for Curries Yard and Springholm.
- Other capital expenditure of £223k is £291k lower than budget. Other capital spend includes work on local touchdown hubs and IT costs.

1c) Underlying surplus – Period to 30 June 2023

Key highlights :

- The Operating Statement (Income and Expenditure Account) on page 2 is prepared in accordance with the requirements of accounting standards (Financial Reporting Standard 102 and the social housing Statement of Recommended Practice 2014).
- However, the inclusion of grant income on new build developments creates volatility in the results and does not reflect the underlying cash surplus/deficit on our letting activity.
- The chart below therefore shows a measure of underlying surplus which adjusts our net operating surplus by excluding the accounting adjustments for the recognition of grant income and depreciation but including capital expenditure on our existing properties.
- For the period to June 2023, an underlying surplus of £1,232k has been generated which is £111k adverse to budget. The adverse variance is a result of higher adaptation grant income offset by increased responsive repair and capitalised void spend.

Underlying Surplus - YTD June 2023			
	YTD Actual £ks	YTD Budget £ks	YTD Variance £ks
Net operating surplus	2,695	2,237	458
add back:			
Depreciation	3,645	3,645	0
less:			
Grant income	0	0	0
Net interest payable	(1,560)	(1,563)	3
Total expenditure on Core Programme	(3,548)	(2,976)	(572)
Underlying surplus / (deficit)	1,232	1,343	(111)

2) In House Repairs Service – Period to 30 June 2023

In House Repairs	YTD			Full Year Budget
	Actual Eks	Budget Eks	Variance Eks	
INCOME				
Internal Subsidiaries	2,872	2,842	30	11,934
External Customers	53	107	(54)	426
TOTAL INCOME	2,925	2,948	(23)	12,360
COST OF SALES				
Staff Costs	1,221	1,650	429	6,600
Materials	891	500	(392)	2,000
Subcontractor & Other Costs	594	490	(104)	2,000
TOTAL COST OF SALES	2,706	2,640	(67)	10,600
GROSS PROFIT	219	308	(90)	1,760
Margin %	7%	10%	384%	14%
Overheads	413	440	27	1,760
NET LOSS	(193)	(132)	(61)	

Key Comments:

- Income for the in house repairs service is £30k higher than budget. External customers income represents Home Group income generated in the period to 30 June 2023.
- Savings in staff costs due to timing of recruitment for the new structure that will be in place from July 2023.
- Materials and subcontractor costs higher than budget driven by more complex jobs and increased prices.

3) Repairs and Investment – Period to 30 June 2023

Revenue Repairs and Maintenance	To 30 June 2023			Budget £ks
	Actual £ks	Budget £ks	Variance £ks	
Reactive	2,440	2,291	(149)	8,820

Total	952	671	281	10,834
Investment programme spend				
Core Programme	300	679	379	3,791
Capitalised repairs	231	229	(2)	876
Social Housing Net Zero	556	556	-	9,975
Capitalised Voids	1,753	1,058	(695)	3,076
Adaptations	396	135	(261)	540
Capitalised Staff	312	319	7	1,277
Total	3,548	2,976	(572)	19,535

Net Investment Spend	2,596	2,305	(291)	8,701
-----------------------------	--------------	--------------	--------------	--------------

Repairs

Repairs and maintenance costs are £148k adverse to budget.

- Reactive repairs are £149k adverse to budget driven by higher material costs and demand. A number of mitigating actions and business rules have been put in place to bring repairs spend within the forecast spend.
- Gas planned maintenance, landscaping and cyclical maintenance and compliance expenditure were all under budget due to the reprofiling of spend against budget.

Investment

Net investment in our existing homes after taking account of fully funded SHNZ and adaptations work was £2,596k, which is £291k higher than budget.

- Core programme is £379k lower than budget due to the timing and reprofiling of the investment programme against budget on environmental, M&E and structural work.
- Capitalised voids are higher than budget. Void work was brought in house during June 2023. The average cost per void is decreasing and the projected savings from bringing it inhouse will be achieved.
- While adaptations are £261k higher than budget these are fully funded as per the grant income section above.

4) New Build – Period to 30 June 2023

Development Name	Status	Contractor	YTD P3			Full Year
			Actual	Budget	Variance	FY Budget
Nursery Avenue	Completed	McTaggart	0	-	0	59
Eastriggs	Completed	Ashleigh	1	-	(1)	38
Curries Yard	On Site	CCG	2,424	3,534	1,110	11,404
Springholm	On Site	Ashleigh	774	3,133	2,360	10,218
Johnstonebridge	In Development	Ashleigh	-	150	150	4,436

Development spend at end of June 2023 totalled £3,763k, against a budget of £7,958k, a variance of £4,195k under budget. £2,091k grant income received for Curries Yard and Springholm will be recognised in the operating statement when units are handed over.

- **Currie's Yard (SR/89):** Site progressing well. Spend is expected to accelerate over the coming months.
- **Springholm (SR/47):** On site and progressing well.
- **Lochside** – all 12 blocks demolished.

Future Developments:

- [redacted]

Revenue Reserve	115,754	114,619
Revaluation Reserve	150,468	151,323
Shareholders' funds	266,222	265,942

Key Comments:

The balance sheet reported reflects the 31 March 2023 year end which is still subject to final audit and year end statutory adjustments, including the revaluation of both housing and investment properties and actuarial valuation of the defined benefit pension scheme.

- **Fixed assets** of £447m – representing new build works added less depreciation of existing assets.
- **Stock** relates to repairs stock purchased from Saint Gobain & Jewson and materials on site related to the investment program.
- **Debtors** – rent and service charge arrears have decreased driven by timing of debt received.
- **Accrued income** – This includes new build grant income, aids and adaptations and the SHNZ investment grant claim.
- **Other debtors** includes capital asset recharge £2.8m.
- **Creditors: within 1 year** Includes
 - Trade creditors are lower than 31 March 2023 driven by timing of supplier payments.
 - Accruals includes £2.7m of investment works (CBG), £1.5m Design and Build costs due to WDSL, £0.7m materials, £0.5m interest payments and £0.4m fleet accruals.
 - Grant income received is deferred until the completion of new build properties. The £6.6m relates to 41 units expected to complete in 2023/24.
- **Long-Term Creditors** relate to
 - Capital loans of £156.7m, including WFL1, Allia and THFC loans.
 - The roll up of accrued interest on Allia loans not payable until end date £4.4m accrued since drawdown.
 - Grant income received is deferred until the completion of new build properties. The balance relates to Curries Yard, Catherinefield and Thornhill, all expected to complete 2024/25 onwards.
 - Provision of £88k relates to the remaining balance made for dilapidation liabilities for offices.

6) Q1 Forecast 2023/24

Operating statement	Full Year 2023/24		
	Q1 Forecast £k	Budget £k	Variance £k
INCOME			
Rental Income	47,855	47,855	0
Void Losses	(568)	(568)	0
Net Rental Income	47,287	47,287	0
Grant Income	4,977	4,977	0
Other Grant Income	8,876	11,736	(2,860)
Other Income	2,356	2,876	(519)
Total Income	63,497	66,876	(3,379)
EXPENDITURE			
Employee Costs - Direct	5,715	5,715	0
Employee Costs - Group Services	3,991	4,038	47

Interest Payable	(6,084)	(6,024)	(60)
STATUTORY SURPLUS / (DEFICIT)	13,703	17,383	(3,680)

Investment	Full Year 2023/24		
	Q1 Forecast £k	Budget £k	Variance £k
Total Capital Investment Income	25,285	34,425	(9,141)
Investment Works	16,114	19,535	3,421
New Build	31,757	38,785	7,028
Other Capital Expenditure	2,056	2,056	(0)
TOTAL CAPITAL EXPENDITURE	49,927	60,376	10,449
NET CAPITAL EXPENDITURE	24,642	25,950	1,308

Key highlights :

Statutory surplus of £13,703k is £3,680k unfavourable to budget driven by the reduction of Social Housing Net Zero (SHNZ) grant income as a result of reprofiling works to 2024/25, lower Wheatley Development Scotland (WDS) gift aid income and increased revenue demolition spend..

- Other grant income is £2,860k lower than budget due to deferral of SHNZ project to 2024/25, partly offset by additional adaptation income (with the corresponding increase in investment works).
- Other income is £519k lower than budget due to lower gift aid from WDS (linked lower New Build spend) and lower garage and lock up rental income to align with Q1 actuals. The YTD void loss rate is 40% vs 30% in the budget.
- Revenue repairs and maintenance are in line with budget. A thorough review of repairs has been conducted with mitigating actions implemented to bring spend back to budget.
- Bad debts are £150k lower than budget with the forecast taking a conservative approach to future performance.
- Demolition costs have increased by £438k due to higher costs to demolished the units, and property buy backs delayed from 2022/23.
- Interest payable is £60k higher than budget higher than budget linked to higher variable interest rates.
- Investment income is £9,141k lower than budget due to the reprofiling of the development programme and deferral of SHNZ project, partly offset by higher adaptation income.
- Investment works are £3,421k lower than budget. This includes reprofiling of some of the SHNZ works to 2024/25. This is offset by increased costs on capitalised voids £500k. Adaptations are £405k higher, however these are fully funded. Excluding adaptations and SHNZ, investment spend has reduced by £569k.
- The new build programme has reduced by £7,028k due to reprofiling of various developments. Johnstonebridge and Lochans have reduced by £2,536k and £2,441k respectively.
- Other capital expenditure is in line with budget.
